

# Wis. Vote Warning To GOP

## Rough Road Still Ahead For Kennedy

Humphrey Points His Guns Toward W. Virginia Race

By JACK BELL — WASHINGTON (AP) — Sen. John F. Kennedy (D-Mass.) cleared a difficult hurdle in winning the Wisconsin primary but faces a long, hard run ahead for the Democratic presidential nomination.

His defeated but not downhearted opponent, Sen. Hubert H. Humphrey (D-Minn.), pointed his guns Wednesday toward West Virginia.

Beginning Friday, Humphrey said, he is going "lion hunting" in the May 10 primary in that largely Protestant state, where Kennedy's Roman Catholicism may be a factor in the outcome.

Vice President Richard M. Nixon, third man in the Wisconsin vote totals, solidified his determination not to campaign in any primary states for the Republican presidential nomination that seems likely to be his for the taking.

**Taft, Stassen Disappointed**  
Wisconsin has produced some disappointed primary winners in the past in such candidates as the late Sen. Robert A. Taft of Ohio and Harold E. Stassen.

What happened there Tuesday was, naturally enough, interpreted favorably by both Republicans and Democrats.

Nixon took note of what he called his "surprisingly large vote." Republican Chairman Thruston B. Morton said the Nixon total was the largest ever received by an unopposed candidate in the primary.

Democratic Chairman Paul Butler said the returns are evidence Wisconsin will go Democratic in November.

The White House refrained from comment beyond the remark by associate press secretary Anne Wheaton that "it was just one primary."

It was clear that the Wisconsin voting left Kennedy's bandwagon rolling considerably short of top speed.

**Psychological Assets Fade**  
Although he got 56 per cent of the popular Democratic vote in piling up a 478,118 total to Humphrey's 372,034, some of the psychological assets of the victory drained away as the ballots were analyzed.

Earlier histrionics — in which brother Bob Kennedy advised the senator against going into Wisconsin at all — obviously had been designed to hang an upset tag on just the kind of victory Kennedy got Tuesday.

But it was Humphrey, and not Kennedy, who got the underdog billing. And the result, which gave Kennedy 20 and Humphrey 10 convention delegate votes, was almost precisely what has been expected in advance. Each got an additional one-half vote from Democratic National Committee members.

## USSR's Sputnik III Plunges To Death

WASHINGTON (UPI) — Russia's Sputnik III plunged to its death in earth's atmosphere Wednesday, leaving 14 man-made objects — two Soviet and 12 U.S. — still whirling in orbit.

In addition, one Russian and two U.S. deep space probes are in orbit around the sun.

Only three of the earth satellites and only one of the sun orbiters — all of them American — still are in radio communication with the earth.

Sputnik III, launched May 15, 1958, reaped a big harvest for science. In its 23 months of life it orbited the earth more than 10,000 times, reporting on radiation, ring currents, and other properties of space.

CATANIA, Sicily (UPI) — Famed Mount Etna, the 10,742-foot "Pillar of Heaven," Wednesday night began spewing red-hot lava and rocks in another of its many eruptions.

## South Africa To Reinstate Pass System

"GRATIFIED" — Sen. John Kennedy (D-Mass.) tells newsmen in Washington yesterday that he was "deeply gratified" by his victory in the Wisconsin primary. He said the total vote "was greater than predicted in the polls and exceeded the mark set by the experts" when he first went into the primary. (AP Photofax)

## Bonn Protests Khrushchev's Hate Campaign

BONN, Germany (AP) — Chancellor Konrad Adenauer's government protested Wednesday the Soviet hate-Germany campaign in a note so sharply worded it falls just short of a breakdown in diplomatic relations.

The note was delivered to the Soviet Foreign Office in Moscow by Ambassador Hans Kroll. The text was made public in Bonn. The West Germans singled out for special attack what was called the campaign of slander put on by Soviet Premier Nikita Khrushchev in his recent visit to France, their strongest continental ally.

The note said Bonn had taken up diplomatic relations with Moscow in an effort to ease international tensions. That was in 1955.

As a result of Khrushchev's utterances in France, the note said, Bonn "cannot but gain the impression that the Soviet Union has not acted in the same spirit."

"The Federal Republic" of West Germany, the note said, "cannot believe in the sincerity of the professed Soviet efforts to relax tensions so long as the Soviet Union seeks throughout the world to awaken hatred and hostility against the German people."

"That kind of language rarely is used in communications between governments maintaining normal diplomatic relations.

There was, however, no threat to break relations and it did not seem likely Bonn meant to go that far. It appeared Adenauer wanted to get himself vigorously on record against the Soviet campaign before the start of the Big Four summit conference May 16.

The note said that Khrushchev, who repeatedly assailed what he called rising militarism in West Germany, sought to give the French public "a completely distorted picture of the political attitudes of the German people and the German government."

## Dirksen Angriely Rebukes Carey In Medical Aid Row

WASHINGTON (AP) — "Stinking... shameful... insane..."

In those terms, Senate Republican Leader Everett M. Dirksen of Illinois blazed Wednesday at a union chieftain's charge that the Eisenhower administration shamefully surrendered to medical and insurance interests and betrayed the health needs of the aged.

The AFL-CIO's James B. Carey flared back at Dirksen: "I know of your lack of concern with the problems of the aged in this connection."

As the row waxed hotter before a Senate subcommittee, Sen. Joseph S. Clark (D-Pa.) came to Carey's defense and deplored Dirksen's conduct as "undignified and uncalled for."

The GOP leader — who had hurled the epithet "stinking" at

## Hated Symbol Set Off Bloody Negro Rioting

JOHANNESBURG, South Africa (AP) — Despite rising appeals for moderation, the government announced Wednesday it will revive South Africa's pass system for nonwhites. Police vowed to crush Negroes trying to prolong the work boycott against white supremacy rule.

The pass system touched off the current outbreak of racial turmoil. Negroes demonstrated against it on March 21 and police fired into their ranks, killing 72. The pass laws were then suspended.

The violence abated at least temporarily. An annual holiday kept people off the streets. But police and troops staged a strong show of force around native townships.

## Many Negroes Burned Passes

Justice Minister F. C. Erasmus said in a statement that the police again will be ordered to demand that all Negroes show their passes any time of the day or night. He did not say when the system will go back into force.

He added that the government might look into the possibility of applying the pass laws "in such a way as to put more stress upon the advantage they hold for Negroes."

Erasmus explained that without a pass a Negro could not work in the city or in any other area reserved for whites.

After the passes were suspended many Negroes jubilantly burned their passes — a hated symbol of their second-class status in jobs, housing, education and civil rights.

## Police Press Campaign

Erasmus said police will help Negroes without passes to obtain temporary documents until they can receive duplicates.

The police pressed their campaign against the boycott which had crippled much of the nation's industry. They charged the movement had been taken over by hoodlums.

"No stone will be left unturned to bring these gangster elements to book," said Col. C. D. Van Wyk, deputy commissioner of police at Pretoria. He charged they are henchmen for "so-called leaders of the native political organizations."

## Frozen Fried Eggs Make Tasty Breakfast Cinch

LAFAYETTE, Ind. (AP) — Frozen fried eggs, frozen French toast and freeze-dried scrambled eggs are being produced by Purdue University's poultry research laboratory.

Dr. W. J. Stadelman, guiding the project, said today the items may be kept in a freezer for as long as six months, then popped into a toaster for a tasty breakfast.

The food is processed in squares about the size of a slice of bread and sealed in aluminum foil. Black lacquer is applied to the outside of the foil to conduct heat.

A corner of the package is nipped before toasting to let steam escape.

another labor official's testimony last Monday — stomped from the hearing room.

A bystander to all this was Secretary of Welfare Arthur S. Flemming who testified he expects within two weeks to begin fashioning a specific proposal for a program of government-aided medical care for the aged.

In general, this would be a voluntary plan based on privately written medical insurance, with federal-state subsidies earmarked to help retired persons to meet the cost of their policies.

Pressed closely by Democratic members of the subcommittee studying problems of the elderly, Flemming acknowledged that in his more than seven years, the Eisenhower administration never had come up with a specific recommendation in this field.

## Senate Shuns Restrictions In Rights Bill

Southern Attempts To Narrow Down Measure Defeated

WASHINGTON (AP) — Two more Southern attempts to whittle down the civil rights bill were overwhelmed in the Senate Wednesday.

A 72-16 vote tabled, and thus killed, an amendment which would have restricted the voting rights section to congressional elections.

A 68-18 margin tabled an amendment to exempt special and primary elections from the requirement that voting records be preserved for federal inspection.

Thus the Senate made doubly clear it does not mean to narrow the scope of the House-passed bill any more than it intends to broaden it. Various efforts to enlarge the bill have already been tabled, as have other attempts to narrow it.

## Ervin Move Defeated

Sen. Sam J. Ervin Jr. (D-NC) offered the amendment to the voting rights section. This section provides for registration through the federal courts of Southern Negroes who demonstrate they have been barred from voting by local officials.

Ervin sought to limit the federal intervention to congressional elections, and not let it apply to state and local elections.

The Carolina senator told his colleagues the Constitution gives the federal government no authority to regulate state elections or to determine the qualifications of voters.

"Does Congress desire to destroy the states of this Union?" he asked. "Does it believe we should have a centralized government? That is the issue."

## Sen. Case Replies

Responding, Sen. Francis Case (R-SD) maintained there is a constitutional right to vote without discrimination because of race or color.

This right to vote, Case said, applies regardless of whether the election is state or federal, whether the contest is for the job of constable or congressman.

The second amendment defeated, dealing with voting records, was offered by Sen. Olin D. Johnston (D-SC). The bill now requires that election records be preserved for 22 months and be available to the U. S. attorney general on demand.

## Flood Fighter Calls Issued

By The Associated Press

Wind and waves pounded Mississippi River dikes Wednesday and set off calls for help for flood-fighting forces.

Officials asked for 700 additional volunteers and tons of hay and straw to bolster the levee in the Gregory Landing, Mo., area.

Strong north winds drove waves against the levee and threatened to undermine it. Bales of hay or straw were needed to form a buffer between the rough waters and the earthen dike.

A levee at the confluence of the Fox and Mississippi rivers near Gregory Landing was blasted with dynamite to relieve the pressure of the Mississippi on protective walls downstream.

A call for volunteers was issued for the district just south of Quincy, Ill., to shore up weakening levees against the rising Mississippi.

During the day the main danger zone narrowed to the lower reaches of the Missouri River and to the Mississippi about 150 miles to the north and the same distance south of St. Louis.

Floods also caused widespread trouble in the East, but rivers were on the decline in most areas in that region.

## Couldn't Be True

LONDON (AP) — A story going the rounds here said President Charles de Gaulle wore to London the same general's uniform in which he left England in 1944 to lead Free French forces.

"A very romantic notion," said a French Embassy spokesman, "but that suit would hardly do today. Since then the President has put on 30 pounds."

## Wartime Allies Have Reunion, Forget Spats

LONDON (AP) — Those unfriendly allies of World War II — Sir Winston Churchill and Gen. Charles de Gaulle — talked and laughed together Wednesday night in the mellowing twilight of advancing years.

They met at dusk for half an hour in the library of Churchill's London home before a warming wood fire while a chilly spring rain drenched the city.

After that, Churchill, 85, was a guest of the 69-year-old French President at a dinner for Queen Elizabeth II and Prince Philip at the French Embassy.

For De Gaulle and his wife it was another triumphant day, full of acclaim, sentiment, emotion and the colorful pageantry that makes state visits come alive in Britain.

De Gaulle went back to the little London square outside his old wartime headquarters and met with some of the men who formed his Free French forces back in the seemingly hopeless early 1940s.

But the high spot of a long day must have been De Gaulle's private visit to Churchill's home, a 2½-story brick house on a quiet, dead-end street.

The two old comrades, who had so many wartime spats, shook hands. De Gaulle flashed a big smile. Churchill fairly beamed. The little party moved 10 yards. (Continued on Page 2, Col. 4)

## Ike Plans Golfing Holiday Next Week

WASHINGTON (UPI) — President Eisenhower plans to go to Augusta, Ga., Monday for a golfing holiday if the Masters tournament at the Augusta National Golf Club ends as expected Sunday.

The White House said Wednesday plans for the trip were not definite but that the Chief Executive hoped to get to Augusta next week.

## Pentagon, In Reversal, Seeks Funds For Six More Polaris Submarines

WASHINGTON (AP) — The Pentagon reversed itself and asked Congress Wednesday for 39 million dollars to start building six more Polaris submarines.

Secretary of Defense Thomas S. Gates Jr. told the House Appropriations Committee the Navy now also is willing to put off getting funds for two of three nuclear attack submarines already included in the new budget.

Should estimates planned for August meet expectations, he said, the Navy may ask for money to complete construction of nine new nuclear-powered vessels — the three already in the budget plus six more. All told, they would cost about 900 million dollars.

The action was a victory for Adm. Arleigh Burke, chief of naval operations, who had been

## Runaway Heiress, Boyfriend Married In North Carolina

(Copyright 1960 By UPI)

RALEIGH, N.C. (UPI) — Heiress Gamble Benedict and her Romanian boyfriend, Andre Porumbescu, were married Wednesday night in a North Carolina civil ceremony, friends of the eloped couple announced.

Rebuffed by legal technicalities in an attempt to marry in South Carolina, the couple fled across the border, obtained a North Carolina license and were married shortly after 8 p.m. at an undisclosed town in this state.

The scene of the hurried ceremony was not revealed to give Andre and his 19-year-old bride time to get to a secret honeymoon spot.

Friends said they were still fearful that Gamble's grandmother in New York, Mrs. Henry Harper Benedict, might take steps even after solemnization of the marriage in an effort to break up the romance.

North Carolina requires only a blood test as a prerequisite for marriage. There is no waiting period. But because of the complexity of Gamble's runaway romance, top state legal authorities were consulted before the license was issued in North Carolina.

Only a few hours earlier the attorney-general of South Carolina had intervened against the couple's application for a marriage license at Dillon, S.C.

Andre and Gamble slipped out of South Carolina Tuesday night after their application for a marriage license had been discovered. South Carolina requires a 24-hour wait before the license is effective.

Complete secrecy surrounded the couple's movements from South Carolina. They left in the middle of the night and switched cars to confuse any pursuers.

Unlike their arrival Tuesday in Dillon, Wednesday's negotiations in North Carolina remained completely secret until news of the brief ceremony was telephoned to waiting friends.

Not until the last minute had there been any assurance that the wedding could be accomplished in this state. Acquaintances said Andre and Gamble were already laying plans to leave the country when the top-level consultations cleared the way for the ceremony.

At the request of New York Judge Peter Horn, of magistrate's court, and Gamble's father, a Brattleboro, Vt., psychiatrist, South Carolina's Atty. Gen. Daniel McLeod issued orders forbidding the issuance of a marriage license to the couple in South Carolina.

## Three Injured In Small Blast Aboard Carrier

WASHINGTON (AP) — The Navy reported a small explosion aboard the carrier Shangri-La Wednesday had injured three people, two seriously and one critically. A two-horsepower air separator operated by a gasoline motor exploded.

The accident occurred after the carrier left Valparaiso, Chile, on a cruise that will take her around Cape Horn and thence into the Atlantic.

The Navy said the vessel suffered no serious damage.

Those injured all were Navy personnel. Their names were withheld pending notification of kin.

Aboard the Shangri-La, which is being transferred from the Pacific to the Atlantic Fleet, are a number of civilian guests including several labor and church leaders. The carrier left San Diego March 16 and is scheduled to reach New York City May 2.

## Republicans Facing Farm Belt Pitfalls

Complete Primary Returns Magnify Kennedy's Victory

MILWAUKEE, Wis. (AP) — The final unofficial tally Wednesday from Wisconsin's key presidential primary turned up potential corn belt pitfalls for the GOP. And it emphasized that Sen. John F. Kennedy (D-Mass.) can make inroads in Republican territory.

The Massachusetts senator took the measure of Sen. Hubert H. Humphrey (D-Minn.) by a comfortable but not crushing margin in the Democratic end of the primary.

Each demonstrated some political punch in rural areas — Humphrey more so than Kennedy, particularly in the state's more hard-pressed agricultural areas. It added up to evidence of farm discontent and worry for the GOP.

For his part, Kennedy demonstrated an ability to pull Republican votes to his standard, especially in Republican counties where the Roman Catholic population is heaviest.

From the greatest flood of votes ever cast in a Wisconsin primary, these results came through:

Kennedy racked up 478,901 votes, six of 10 congressional districts, and 20 of 30 votes at the Democratic National Convention. He got 56 per cent of the total Democratic vote; 40 per cent of the total two-party vote.

## 372,034 Humphrey Votes

Sen. Humphrey gathered in 372,034 votes, four congressional districts, 10 votes at the Los Angeles convention next July. Humphrey drew 44 per cent of the Democratic and 31 per cent of the total ballot. Kennedy and Humphrey each had another ½ vote going in from Democratic National Committee members.

Vice President Richard M. Nixon took in 341,463 votes in the uncontested primary and 30 for the collection he is gathering for the Republican National Convention in Chicago. Nixon had to settle for 29 per cent of the statewide vote, in a state which is historically Republican.

Behind the statistics the effects of powerful political forces could be seen, though in general outlines rather than specific dimensions.

Kennedy's victory was achieved not only from Democratic support. He is a Roman Catholic. And Roman Catholics obviously voted for him in large proportions, regardless of party loyalties. In some areas Republicans obviously moved over into the Democratic primary in heavy numbers.

## Records Smashed

Wisconsin has a comparatively high Catholic population of around 30 per cent. In areas where there are the most Catholics, Kennedy swamped Humphrey. He piled up impressive votes, too, in traditional Republican strongholds — some of them Catholic, also.

Humphrey showed best in the farming areas along the western edge of the state, adjoining his home base in Minnesota. But Kennedy also ran well in some rural regions.

Humphrey actually took more counties than Kennedy — 37 to 34. But many of them were small ones.

The primary smashed records. The total vote of 1,191,615 topped the previous high for a presidential primary set in 1952 when the GOP had a hot three-way race. The 1952 figure was 1,018,149. The 1956 total was 786,497.

And for the first time in history, the Democratic vote topped the Republican on the basis of a hasty check by the state election supervisor.

## Jaundice Sidelines Antony's Best Man

LONDON (AP) — The best man chosen for the May 6 wedding of Princess Margaret bowed out Wednesday night because of illness with jaundice.

Jeremy Fry, wealthy industrialist friend of Margaret's fiancé Antony Armstrong-Jones, formally announced that he would be unable to stand with the bridegroom at Westminster Abbey a month hence on advice of his physician.

There was some speculation that Andrew Garnett, another friend of Armstrong-Jones and an associate in Fry's electric engineering firm, is under consideration as a replacement.

TEHERAN, Iran (AP) — The newspaper Keyham reported that 57 Iranian and Kuwaiti passengers on a motor launch drowned Wednesday in a Persian Gulf storm near Kuwait. It said 15 passengers were rescued by another vessel.

## "Peter Pan" Dies In Fall Under Train

LONDON (AP)—The wheels of young and old know better. It was a subway train have taken the Peter Pan.

The hospital entry says the man death came to Peter Pan must who died Tuesday night in a fall await an inquest.

As a 10-year-old boy playing in from a subway platform was Pe- But the Kensington Gardens, Davies be-

came acquainted with a shy play- wright by the name of James M. Barrie.

The boy, Peter, and his four brothers told Sir James about a place called Never-Never Land, about Capt. Hook the pirate, about Indians and a crocodile that swallowed an alarm clock.

And from this world of their imagination came the story and play of Peter Pan, the boy who could fly, who never wanted to grow up.

Peter Davies grew up to become not only godson of Sir James but his intimate friend until the playwrights death in 1937. By that time he had followed almost the only natural course for the boy who inspired great writing—he formed his own publishing house.

On Barrie's death, Peter Davies and his family inherited most of the authors manuscripts and private papers.

Peter left a widow and three sons.

Those who mourned Peter Llewellyn Davies could recall the words of Peter Pan himself in striving to understand Wendy and John and the other earthlings: "To die will be an awfully big adventure."

WASHINGTON (UPI) — The White House announced Wednesday that President Eisenhower will begin a series of breakfast meetings Thursday with ranking Republican members of Congress. The President scheduled a 7:45 a.m. breakfast at the White House with 22 members of the House GOP Policy Committee.

## Contraceptive Pill Described By Scientist

CINCINNATI, Ohio (AP) — A pill, which he said will prevent pregnancy and which he felt should meet the approval of any religious faith, was discussed Wednesday by Dr. John Rock, Brookline, Mass.

The physician, a Harvard scientist, told a reporter about the pill after he addressed a group attending the annual meeting of the American College of Obstetricians and Gynecologists.

Asked if it had the approval of all faiths, Dr. Rock said: "I do not speak for the Catholic Church. I merely say it ought to be approved."

"The reason is because it is merely a substitute for the hormone naturally produced in a woman's body when nature knows that she needs protection, such as after she has released one egg and during pregnancy."

"It would seem, inasmuch as nature does not recognize the danger to the mother and the family of an excessive birth rate, that it is proper for the woman to use her intellect, which is a natural human quality to take over the job as nature would, if nature could see the danger in the burdensome family."

Dr. Rock said the pill, known as "Enovid," has not been approved as a contraceptive by the federal Food and Drug Administration, so far as he knew.

It has been approved, however, for use in menstrual disorders.

## Radio Telescope Now In Business

GREEN BANK, W. Va. (AP)—Experts working frantically to keep a target date finally completed the rigging Wednesday for a great radio Ear with which scientists will listen for space signals from distant planets.

Dr. Frank B. Drake said that the giant 85-foot-diameter radio telescope at the National Radio Astronomy Observatory in mountainous West Virginia was now in business.

"We are proceeding on schedule," said Drake, the young astronomer who is in charge of the operation.

He declined to speculate on when or if any signals bouncing around the vast universe might be picked up.

Scientists say the equipment here is adequate to pick up radio signals from points thousands of billions of miles away. The radio telescope enables astronomers to "hear" from outer space rather than "see" it through a visual telescope.

## Wartime Allies

(Continued from Page 1) down a carpeted hall and turned right into Churchill's library.

In addition to some rare first editions, the library contained two very special sets of memoirs — Churchill's and De Gaulle's.

And in these writings about the war, the two warriors said some fairly rude things about one another.

Churchill wrote that he found the general tough to get along with and "haughty, cold and arrogant."

And what did De Gaulle's book say?

"Mr. Churchill," he wrote, "seemed to me to be equal to the rudest task, provided it also had grandeur."

"The harsh and painful incidents that often rose between us . . . have influenced my attitude."

## French Troops Attack Rebel Installations

ALGIERS, Algeria (AP) — French army units have launched a new offensive to smash rebel installations near the Tunisian frontier, headquarters for Algeria said Wednesday.

The army said "Operation Marathon" was begun several weeks ago between two electrified barriers separating Algeria from Tunisia.

The aim is to destroy rebel installations, hideouts and units of special guides who conduct guerrilla commandos from Tunisian bases into Algeria.

## Kennedy Claims He Is Closer To Nomination

WASHINGTON (AP)—Sen. John F. Kennedy of Massachusetts said Wednesday his Wisconsin primary victory has moved him closer to the Democratic presidential nomination.

His party will choose its nominee the week of July 11, and Kennedy told a news conference: "I think we have made progress on the road to Los Angeles. After the primaries in West Virginia, Maryland, Indiana, Nebraska and Oregon, the picture should be very clear."

In West Virginia, Kennedy will be up against Sen. Hubert H. Humphrey of Minnesota, whom he defeated in Wisconsin's presidential primary Tuesday. In Nebraska, Kennedy will have no major opposition. The Oregon primary is a free-for-all in which the names of all the chief candidates, and some minor ones, will be entered.

Kennedy told reporters his Wisconsin margin, which exceeded 56 per cent, "was greater than predicted in the polls and exceeded the mark set by the experts when I first went into the primary."

## Truck-Train Crash Claims Three Lives

MILLINGTON, Mich. (UPI) — Three persons were killed and 10 injured Wednesday when a milk truck crashed broadside into a one-car New York Central passenger train at an unprotected crossing southeast of here.

The impact of the crash knocked the NYC Beeline off the rails and it skidded 785 feet before coming to a stop.

Those killed were identified as Reuben F. Bush, 29, Davison, Mich., the truck driver; Prof. Henry T. Ward, 63, of Kansas State University who was on his way to a meeting at the Dow Chemical Co., at Midland, Mich., and A. G. Wellons, 68, Chicago.

Wellons and Ward were among 19 persons on the train.

## Trio Plan Walk Across Nation

NEW YORK (AP)—Three foot-loose Britons — two men and a woman—have decided to take a stroll in the United States. They're going to walk across the country.

All three expect to be starting out on a 3,000-mile trek from San Francisco to New York between April 12 and 16.

They won't be the first by any means. People have been hoofing from coast to coast for more than 50 years just for the heck of it. Before that, a lot of others probably did it by necessity.

The men are Royal Air Force personnel: Sgt. Mervyn Evans, 33-year-old physical training instructor, and Sgt. Patrick Makalony, 34, a parachute trooper. They arrived by plane Wednesday.

Sailing from England Wednesday night was Dr. Barbara Moore, the vegetarian pedestrian who recently strode 1,000 miles from the top to the bottom of Britain.

## Nursing Home Offer Accepted

ANNAPOLIS (AP)—The Board of Public Works Wednesday gladly accepted the offer of a Hagerstown research laboratory on property furnished by the county.

The board agreed to deed over to the county 4.3 acres now located on the Western Maryland State Hospital grounds.

It is this site where Andrew W. Coffman plans to build a nursing home with at least 36 beds for use of needy old people in the county.

Coffman, a 90-year-old funeral director, had earlier built a county health center and a separate cancer research laboratory on property furnished by the county.

## Highway Safety Individual Responsibility — Tawes

BALTIMORE (AP)—Gov. Tawes told the Safety First Club traffic warrants and another in a prepared speech. He said Wednesday night the public must be sold on the "idea of individual responsibility for safety on the highways." "Despite all the effort we have expanded on safety education, it is a fact, I believe, that we have failed to indoctrinate the people with the idea of individual responsibility for careful driving," the governor said. "We must strengthen laws on unsatisfactory claims and judgments, set up a department of motor vehicles to withhold license from school-bus stop laws, prohibit bicycles and animal-drawn vehicles on expressways and increase penalties for operating vehicles on a suspended or revoked license. The governor also reminded the club members that a point system designed to weed dangerous drivers off Maryland highways will go into effect next Jan. 1. The law was passed by the 1959 Legislature. "As far as legislation is concerned, I consider this law a key-stone of our traffic safety program in the state," the governor added. "It creates a sort of merit rating for drivers, with rewards for the good drivers and penalties for the bad ones, and thus serves to encourage careful driving on the part of everyone."

## Motherwell Plans Appeal

WASHINGTON (AP) — Larry Lord Motherwell, sentenced in California Monday to life imprisonment for first degree murder in the death of a 72-year-old Washington widow, will carry an appeal to a higher court, his attorney said Wednesday.

The trial judge in Sierra County, Calif., has denied Motherwell's plea for a new trial. His attorney John T. Reges, said that at Motherwell's insistence he plans to file an appeal from this denial. Reges said he will notify the Superior Court at Downieville, Calif., of an appeal to the Court of Appeals in California. This is an attempt to upset the conviction and thus gain a new trial, Reges said. If a new trial is held and Motherwell is convicted again of the slaying of Mrs. Pearl Putney in August 1958, he risks the possibility that he might be sentenced to the gas chamber. "Larry is fully aware of the risks involved," Reges said, "and is confident he'll be vindicated in a second trial."

## Fugitive 15 Years Given His Freedom

BALTIMORE (AP)—A man who escaped from a prison work detail in 1945 and went to Brooklyn, N.Y., to live under an assumed name for 15 years has been given his complete freedom. The Department of Parole and Probation reported Wednesday that Richard Moore Davis, now 41, has been discharged from its supervision so that he can return to his Brooklyn job. FBI agents arrested him last Feb. 16 on an unlawful flight charge. Davis had been working for a trucking company there since he fled from the State Reformatory near Hagerstown in 1945 to two years on a burglary charge.

## Beall Against Curb

WASHINGTON (AP) — Republican Senators Beall and Butler of Maryland voted Wednesday to kill an amendment by Sen. Ervin Jr. (D-NC) to limit the voting rights section of the civil rights bill to Congressional elections.

## Teeners Sniff Airplane Glue, Get "Real Gone"

BALTIMORE (AP)—Five teenagers related matter of - of - factly paper bags, then stuck their heads into the glue. Doctors told police the glue—used by youngsters to build model airplanes—contains acetone alcohol and anylacetate, which can cause intoxication. It's real noisy stuff, they agreed. "It would just about knock you out. When you woke up you had a good feeling, a real light feeling, and it gave you a kick. You felt like you could beat anybody in the world." The two boys and three girls, all 16 or 17, told Magistrate John A. McGuire about their glue sniffing parties, with interpolation by Lt. Vincent Serio. Serio said the teenagers sprayed the world.

### Eagle Or Dogs, Claim For Dead Hogs Settled

UPPER MARLBORO, Md. (AP)—The Prince Georges county commissioners are pretty certain that an eagle didn't kill 35 hogs.

And the commissioners are skeptical that a dog did it.

But, anyhow, they decided Tuesday to pay a pig raiser \$200 for the dead hogs.

Willie S. Young of Washington had asked \$420 for the animals. His claim was based on a contention that the county is responsible for animals killed by stray dogs.

Representing Young at the hearing was Peter Moore, who rents land to Young. Moore said the animals were killed over a two-week period.

When Commissioner Jesse S. Baggett, a hog raiser himself, commented that he didn't see how a dog could kill 35 hogs, Moore interrupted to say that an eagle also had been under suspicion.

"The claim has the hogs weighing 65 pounds apiece, and that's a big load for a bald eagle," said Baggett.

"It adds up to more than a ton of meat," observed Commissioner Herbert W. Reichelt.

While the commissioners were mulling over a compromise, Moore made a final bid.

He has always defended the commissioners and their tax levies, he said, and it would look bad if he had to go home with nothing to show for the claim.

Baggett moved that a payment of \$200 be approved. The motion passed.

### Pastor Emeritus Dies

HAGERSTOWN (AP)—Funeral services will be held here Friday for the Rev. Dr. Scott R. Wagner, pastor emeritus of the United Church of Christ.

After serving in several Pennsylvania churches, Dr. Wagner in 1920 came to the Zion Evangelical Church here. After a recent merger, the name of the church became the United Church of Christ.

### Four Face Arson Charge

VIENNA, Md. (AP)—Four young men were charged Wednesday with burning down an unoccupied farm house by throwing a pop bottle of burning gasoline in it Tuesday night.

Two juveniles also arrested in connection with the fire were released in custody of the parents. The other four defendants were freed on \$1,000 bail each by Magistrate Allen M. Baird.

They include Jay Ellsworth Hall, 20, a U. S. Coast Guardsman from Erie, Pa., stationed at Vienna, Bobbie Harding, 20, Jimmie Short, 18, and Quinten Phillips, 18.

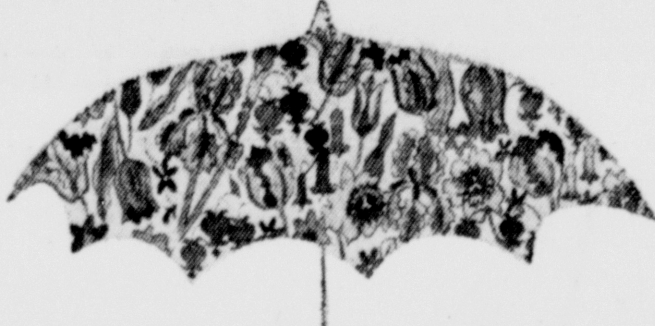

The charges of arson against them were placed by State Trooper Paul Webster and Deputy Sheriff Russell Elzey.

Webster said Hall told him the six met at a service station where it was the idea to fill seven pop bottles with gasoline. He said he leased in custody of the parents, proposed they put wicks in them, light them and throw them out on some back road.

Instead, one was tossed in a house on the farm owned by Mrs. Hall, 20, a U. S. Coast Guardsman from Erie, Pa., stationed at Vienna, Bobbie Harding, 20, Jimmie Short, 18, and Quinten Phillips, 18.

# A Report of Progress at PPG

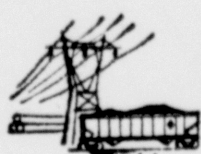

During 1959, over 34,500 employees of the Pittsburgh Plate Glass Company made and sold for the Company

## \$606,947,000

worth of

Paint, Glass, Chemical and Fiber Glass Products

This \$606,947,000 in sales plus revenue of \$6,220,000 from investments and other nonoperating sources brings total revenue to \$613,167,000 for PPG in 1959. Following is a breakdown of how this revenue was used in conducting PPG's business.

45.4%

\$277,546,000 or 45.4% for Materials and Services Purchased from Others. The largest single cost of doing business was the purchase of raw materials, services and supplies. These were bought from thousands of different suppliers. A large part of the \$277,546,000 was paid to independent businesses such as truck lines, local utility companies, etc.

34.2%

\$209,696,000 or 34.2% for Wages, Salaries and Employee Benefits. This represents the second largest expenditure by PPG. During 1959, PPG employees actually received a grand total of \$216,719,000 for wages, salaries and employee benefits. Of this, \$209,696,000 was the amount paid for goods and services sold in 1959. In addition, approximately \$7,000,000 in employment costs was paid to turn out products required to restore inventories to normal levels. Of the total \$216,719,000 paid to employees, \$184,507,000 was for wages and salaries and \$32,212,000 was for benefits. On the average, PPG paid a total of \$932.00 in benefits for every employee. These benefits included retirement funds, hospitalization, vacations, etc.

7.8%

\$47,877,000 or 7.8% for Taxes (other than Social Security Taxes). PPG's tax bill of \$47,877,000 (other than Social Security Taxes) was over double the amount paid as cash dividends to shareholders. Part of this tax money was used for local schools, roads and other public services.

5.5%

\$33,952,000 or 5.5% for Depreciation of Plant and Equipment. As with an automobile or a home, plants and equipment depreciate and wear away. The Company has to provide funds out of its income to pay for the replacement of these production facilities to maintain efficient operations.

3.6%

\$22,283,000 or 3.6% Invested in the Assets of the Business. In order to move ahead and provide jobs and income, the Company must have funds to build and expand plant facilities and research laboratories, develop new machinery and equipment, and provide working capital to keep itself ahead of competition.

3.5%

\$21,813,000 or 3.5% for Dividends Paid to Shareholders. PPG is owned by 20,800 shareholders who have their money invested in the Company. On each share of stock outstanding, the Company in 1959 paid a cash dividend of \$2.20 for use of the shareholder's money.

How Much Has  
the Company  
Invested in  
Each Job?

During 1959 PPG had invested an average of

### \$16,100

for every job. In the past year \$42,532,000 was spent for expansion, replacement and modernization of facilities. Research and development spending—vital for progress—amounted to \$17,000,000 in addition to capital expenditures.

## PPG's Operations in the Cumberland Area in 1959

Almost everyone in this area, either directly, or indirectly, has a stake in the operations of the Pittsburgh Plate Glass Company. For example, the wages, salaries and benefits we pay to employees are used to trade with local merchants; part of the taxes we pay are used for improving schools, roads and other community services. PPG itself buys supplies and services through many local outlets.

Following is a summary of the vital statistics concerning our plant operations in the local area for the year 1959:

Average number of employees ..... 738  
Employees' wages, salaries  
and benefits ..... \$4,662,000

PITTSBURGH  
PLATE GLASS COMPANY

J. B. WHITE, MANAGER

GLASS DIVISION  
WORKS No. 7, CUMBERLAND, MD.

To Our Friends and Neighbors:

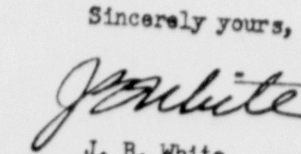

April 6, 1960

In reviewing the progress made by our Company in the year just ended, many thoughts come to mind pertinent to our own progress in Cumberland.

Foremost, the Management of this plant appreciates the reception accorded us in the community. We are pleased to have been invited to offer our support or suggestions in community projects, such as, industrial development, teacher training, street lighting, and many many others. The leaders of the City, County, and State governments have been helpful in solving many of our problems related to establishing our business. The area business men and utility managers, from whom we secure goods and services amounting to two and one-half million dollars annually, are a very cooperative group and are outstanding representatives of this community.

In return for the faith placed in us, we have endeavored to provide our employees with stable employment, safe and good working conditions, and good wages. Our employees have made a record for themselves in the community by voluntary participation in the County United Fund, Red Cross Blood Program, and U.S. Savings Bonds purchases, as well as by active participation in all forms of civic organizations.

In the future we hope to see real progress in local community planning. This community has many far-sighted people, who with everyone's support, can make this area a top attraction to other industries and business, and by so doing, grow far beyond the present limits. We will support our share of this effort and, at the same time, hope to expand and improve our processes, thereby making even more security for our employees. We must not, however, overlook the old reliable industrial friends who merit as much or more attention and efforts than we or any other prospective newcomer. They have and continue to serve the community well. We would not like to think that our presence might soon be taken for granted by either our employees or the community. A great deal of work remains to be done, but with your continued support, we will be successful.

Sincerely yours,  
  
J. B. White  
Manager

Canal Story Is Sent To England

Ross F. Shaw, Oldtown, an honorary member of the Skipton Yorkshire Historical Society of England, reports he has sent a copy of the March issue of the National Geographic Magazine to Mrs. Margaret M. Thompson, president of the society. The issue contains a brief story of the old C&O Canal from Cumberland to Washington, and includes a picture of the canal at Oldtown, during the annual rodeo for the benefit of the Allegany County Crippled Children's League.

Mr. Shaw explained that he sent the magazine because Col. Thomas Cresap was born in Skipton, England, in 1694 and migrated to this country in 1710. He and his descendants played a major role in the Revolutionary War and he built and established the first home in Allegany county in 1740 at Oldtown, which he originally called Fort Skipton. However as early as 1750 documents mention it as Oldtown. It was the last fort he helped build. He died in January 1790.

First Baptist WMS and Auxiliaries will have a covered dish supper at 6 tonight at the church.

Eva Sliviak Is Named Omicron Girl Of Year

Omicron Chapter named its "Girl of the Year" and announced 22 members to receive degrees at the Ritual of Jewels dinner, at the meeting Tuesday evening at the home of Miss Margaret Smith, Holland Street. Mrs. Sara Mullaney was cohostess.

Mrs. Eva Sliviak was selected as "Girl of the Year." It was decided that each chapter will honor its own "Girl" instead of having it city-wide as previously.

The Ritual of Jewels dinner will be April 28 at the Ali Ghan Country Club at which time four members will receive the Order of the Rose. They are Mrs. LaVerne H. Kins, Mrs. Alpha B. B. Miss Betty Roemmelmeyer and Miss Ruth Barry, also the Exemplar degree will be given to Mrs. Barb. Miss Barry, Mrs. Eleanor Dickson, Mrs. Frances Frank, Miss Patricia Golden, Mrs. Helen Arthur, Mrs. Hankins, Miss Heinen, Mae Kreiling, Miss Leannah Mathews, Mrs. Mullaney, Mrs. Charlotte Northcraft, Mrs. Barbara Richardson, Mrs. Estalene Shanholzer, Mrs. Shirley Scho-wengerdt, Mrs. Loretta Smith, Miss Margaret Smith, Miss Roemmelmeyer and Mrs. Mary Harrison.

An Exemplar nominating committee was appointed. It consists of Mrs. Loretta Smith, Mrs. Richardson and Mrs. Patricia Buskey.

It was decided that food and baskets for the children will be

Spring Conference Announced

Announcement of the May Fellowship Day luncheon of the United Church Women of Cumberland, May 6 was made by Mrs. James Orr at the meeting of Circle 4 of the United Lutheran Church Women of St. Paul's Church, Tuesday, Mrs. R. L. Holland will be the speaker for the luncheon, which will be at 1 p.m. at Central YMCA.

The meeting, conducted by Mrs. Orr, opened with the group singing, "Take Time To Be Holy." Routine and the policy committee reports were given. Mrs. Calvin Keiter announced a spring conference at St. Paul's April 19. The theme is "Be Steadfast." Dinner will be served at 6. Reservations should be made with circle leaders.

A committee to elect a leader for Circle 4 was named. It consists of Mrs. George Philippi, Mrs. Frank White and Mrs. Randal Rowley. The latter also collected money from the nest egg project for a memorial to the late Rev. H. T. Bowersox, D.D.

"Christian Mission to International Students" was the topic of the program presented by Mrs. Peter Smith, guest speaker. She showed snapshots, colored slides, gifts and letters from foreign students she has entertained in her home. Sally Trent of the primary department sang "Easter Lilies" accompanied at the piano by her mother, Mrs. Clyde Trent. Mrs. Hugh Funkhauser and Mrs. Fred Gates Jr. were program leaders. The former read the Scripture and the latter offered prayer.

Ms. Pearl Metz was chairman of table decorations in keeping with the Easter theme. She was assisted by Mrs. Funkhauser, Mrs. Minnie Rice, Mrs. Myra Floto, Mrs. Verdine Grubb and Mrs. Gates. Seven visitors and 19 members attended. The visitors were Mrs. John F. Sammel, Mrs. Trent and her daughter, Mrs. Smith, Mrs. Margaret Baum, Mrs. Harold Fearer and Mrs. Keiter.

The May meeting will be an outdoor party at the home of Mr. and Mrs. Thomas F. Chandler, Braddock Farms, with the hostess assisted by Mrs. Amelia Zimmerman.

Farmers Urged To Fight For Freedom

Noah Keehauser urged members of the Allegany County Farm Bureau and Associated Women to fight for their freedom against government control. Guest speaker at the annual spring dinner, held Tuesday evening at the North Branch fire hall, Mr. Keehauser discussed farming conditions and suggested each write his legislators protesting the Forand Bill concerning socialized medicine and against wheat control. It was agreed that farmers should be free to work their own farms, with supply and demand controlling the products.

The speaker also warned his audience to fight the Communist trend to organize farmers; and to be on their guard—and on the fall ballot to vote against the amendment to study the farm land for an increase in assessments. The talk was illustrated with slides on wheat control and literature was distributed. The speaker was introduced by Carroll Leatherman, field representative.

James Twigg, president of the Farm Bureau, was master of ceremonies. Mrs. Roy Shryock, Sr., president of the Associated Women, introduced her officers.

The program included group singing, led by Mrs. Harry Barton; solos by Mrs. Charles Reckley and a skit, "They Criticized and How", by Mrs. Rose Ellen Morgan, Mrs. Nat Workman, Mrs. Edwin Everhart, Mrs. Albert Kinser, Mrs. James Porter and Mrs. K. O. Nelson of the Associated Young People. Rev. Charles Bogan offered the invocation. Mrs. Clara Pollick, the devotion and Rev. I. G. Allan, prayer. A country store followed and a miscellaneous assortment of samples were distributed. There were 196 members present.

The Associated Women will meet May 24 at Lazarus fountain room.

EUB Workshop To Be Today

"Unity in the Local Church" is the theme of the workshop being conducted today at First EUB Church from 10 until 3, by the Women's Society of World Service of the UBC of the Keyser-Cumberland district. "The purpose of the training day is to enable officers to be more skillful and effective in their work, and new tools introduced," Mrs. E. E. Miller, first vice president of the Virginia Conference, explains.

The program also includes a playlet, "The Executive Committee Meets," and a film strip, "The Church at Work in the World." Members of the host church will serve hot drinks at the box lunch hour.

McAteer Sisters Plan Reunion

Three McAteer sisters, who formerly resided in Frostburg, will be reunited for the first time in 15 years next week in Milwaukee, Wis. The sisters are Mrs. Winnie Killian, Baltimore; Mrs. Margaret Crump, Detroit, Mich., and Mrs. Alice Koepke, Robert Snoeberger, son of Mrs. Rita Ingram, Cumberland, another McAteer sister, will accompany his aunts, Mrs. Killian and Mrs. Crump, to Milwaukee.

Club Hears Talk On Fabrics

A demonstration of the proper care of modern clothing was given by Miss Mary Wise at the meeting of the Progressive Young Women's Club at the home of Mrs. John Barton, McMullen Highway. She also lectured on the newer man-made fabrics.

The meeting was conducted by Mrs. Garland Paxton. Following the Lord's Prayer, Mrs. Harold Bishop, Jr., read the Homemaker's creed. Mrs. Mabel White gave the history of the hymn of the month, "Welcome, Happy Morning," followed by group singing. Mrs. William Suder called the roll with each relating her experience with wash and wear clothing.

Announcement was made of the spring meeting and luncheon of the County Homemakers Clubs scheduled for 11 a. m. May 4, at the Ali Ghan Country Club.

Refreshments were served at the conclusion of the program. Others present were Mrs. Brownlee Armstrong, Mrs. James Armstrong, Mrs. H. J. Barton, Mrs. Harold Bishop, Sr., Mrs. Dean Broadwater, Mrs. Arthur Evans, Mrs. Robert Johnson, Mrs. Dale Kelley, Mrs. K. O. Nelson, Mrs. Hayden Phillips, Mrs. Clarence Walters and the following visitors, Mrs. Irene MacDonald, Mrs. Norma Lester and Bonnie Barton.

The next meeting will be held at the home of Mrs. Bishop, Sr., 82 Orchard St., Keyser, on May 6.

# Ann Landers . . .

## Answers Your Problems

DEAR ANN LANDERS: I've been going steady with Rick for eight months. For my birthday he gave me a \$3 bracelet. For his birthday I gave him a bill fold which cost \$3.50 and I spent an extra \$2 to put my picture in it.

For Christmas he gave me a framed portrait of himself which he said cost \$6. (I think it was less.) I gave him a pair of gloves which cost \$7.

On Valentine's Day he gave me a box of candy which I found out sold for \$2. I was very disappointed as I bought him a \$3 key chain.

After thinking it over it seems that I must like him more than he likes me. Do you agree? Please help me see things clearly. — CORA

DEAR CORA: How do you expect to see anything with those dollar-signs on your eyeballs? Do you have a bookkeeper or do you do all this yourself?

It's difficult to tell what HE thinks, but it's easy to figure out what's important to you. Nothing is so unappealing as a girl who is hoping her Prince in shining armor will drive up in a Brink's money wagon — and I do mean YOU.

DEAR ANN: A widower nearly 60 has been attentive to me for over a year. I care a great deal for him.

He hasn't told me so himself but I've heard from others that he'd like to marry me but his children are against it. They don't object to me as a person. They just don't want me to come into any of their father's estate if he should die before I do.

I have a nice income of my own and don't need this man's money. I'd be perfectly willing to sign a pre-marital agreement which would leave everything to his children. All I want is his love and companionship.

How can I tell him so without appearing to be rushing him into marriage? — PREDICAMENT

## Preliminary Plans Made For Flood Emergency

Preliminary plans for a flood which go into action during emergency practice exercise agencies will be invited either to were formulated yesterday during participate or observe during the a conference between City Engineer.

It is anticipated that representatives of the staff of the Division and report section of the Washington District, Corps of Army Engineers.

Morris said the test exercise is tentatively scheduled for May, servers from other districts of and is a follow through of the the Corps of Engineers will be Corps of Engineers procedure after any flood protection project is completed.

The test, he explained, will and his staff also prepares man-roughly cover all of the North Branch area of the Potomac River, although the exercise will be centered here in order that the flood protection offered by the Cumberland-Ridgely project can be assessed.

However, all communities along the upper branches of the Potomac will be covered during the theoretical flood so that it can be determined how efficient the individual emergency organizations are set up. The test also will be of value in assessing evacuation and related problems during a flood time, Morris said.

The program for the exercise will include demonstrations of sandbagging, procedures to be followed in operating the various pumping stations and simulated rescue operations.

Morris said the Red Cross, Civil Defense and other agencies

## Youth Sentenced For Petit Larceny

Magistrate F. Allan Weatherholt yesterday sentenced Joseph G. Lewis, 18, of 512 Marshall Street, to 30 days in the County Jail on a petit larceny charge. Lewis was arrested by City Police Tuesday and charged with taking two phonograph records from a local store. The youth was arrested several weeks ago for taking a radio from the same store. Police recovered the radio and the store did not prosecute.

## Marine Official To Visit Here

Major Thurmond Owens, head of the unit training of the organized Division of Reserve, Marine Corps Headquarters, will make an informal visit Friday to the 43d Rifle Company, Marine Corps Reserve unit here. Capt. Richard V. Molecky, instructor-instructor of the local unit, said last night that he will confer with Major Owens and discuss the training program here. Weekend drills will probably be discussed as well as the annual field training schedule July 11-22 at Parris Island, S.C. Major Owens will leave here Saturday.

## Modern County

(Continued from Page 24)  
1. The County Commissioners stated that funds for the installation of radio equipment in vehicles assigned the sheriff's office are included in the budget for the fiscal year beginning July 1, 1960, and the expenditure is approved by the Commissioners.  
2. The county jail is in good condition considering the age of the structure and the grand jury recommends immediate installation of a shower for the use of the sheriff and deputies.  
The solitary confinement quarters should be converted to a confinement area for inebriates. The broiler room and ceiling should be ventilated and insulated to control temperature in the offices above. The interior of the jail could be improved by utilizing the inmates in painting and general maintenance.  
3. The County Home is in excellent condition and an application of paint to the entrance steps is the only immediate need.

**Good Repair Cited**  
4. The County Infirmary and Sylvan Retreat are both in good repair.  
5. It is recommended that a qualified inspector such as an investigator from the Underwriters Laboratory be requested to make an immediate inspection and report to the County Commissioners on the wiring of all county properties.

This recommendation is based on deficient wiring noted in the Court House, Jail and County Home. The hazardous wiring constitutes a danger of fire and loss of life and property, the report asserts. Action in this area should not be deferred for fiscal reasons, and immediate attention is requested.

6. In the attic of the Court House several screens should be installed to prevent pigeons from entering the building.  
The grand jury expressed appreciation to the State's Attorney's office for its excellent presentation of cases and guidance during the session.

The three-page report was signed by F. Perry Smith, foreman, Miles G. Thompson Jr. and Juanita S. Fix, clerks.

## Gordon Will Speak On College Campus

Martin Gordon, work unit conservationist of the Soil Conservation Office here, will give a talk on soil and water conservation this morning at Frostburg State Teachers College.

He also plans to show slides in conjunction with his talk. Last year Mr. Gordon discussed conservation with a group of about 55 students of the college who later went on a field trip.

Those who hear Mr. Gordon today in all probability will go on a field trip later this year. Dr. Harold Cordts requested that Mr. Gordon speak to the students today.

## Navy Outlines

(Continued from Page 24)  
Road Being Improved  
So heavy are the structural materials that the Navy asked West Virginia to improve seven miles of road from Brandywine to the research station's access road. The state lacked money, so the Navy made available \$650,000 for relocation and resurfacing. Captain Tyrell said the idea was to assure an adequate haul road for materials and to provide safer access to the station. The work is now being done.

Technical director at Sugar Grove is James H. Trexler of the Naval Research Laboratory, who in 1954 was the first man to bounce his voice off the moon and hear it come back. ## Church Lists Holy Week Services

Holy Week services were listed yesterday for Emmanuel Methodist Church by Rev. Harold R. McClay Sr., pastor.

The services will open on Sunday at 7:30 p. m., with a sermon on "Divine Commission," by Rev. Carlton M. Harris, pastor of Centre Street Methodist Church.

Rev. Louis Emerick, of Trinity Circuit, will talk on "A Little While." Musical groups of the pastors' churches will present selections at the services.

Tuesday, Rev. George T. C. Bell, of McKendree Methodist Church, will speak on "Personal Contact With Christ," while on Wednesday, Rev. Frank Wanek of the Cumberland Methodist

## PE Announces Changes In Personnel Here

To meet the needs of customers in this area, The Potomac Edison Company has announced a major reorganization of marketing services.

As part of this reorganization, Garland L. Johnston, district manager for PE here, announced the following changes:

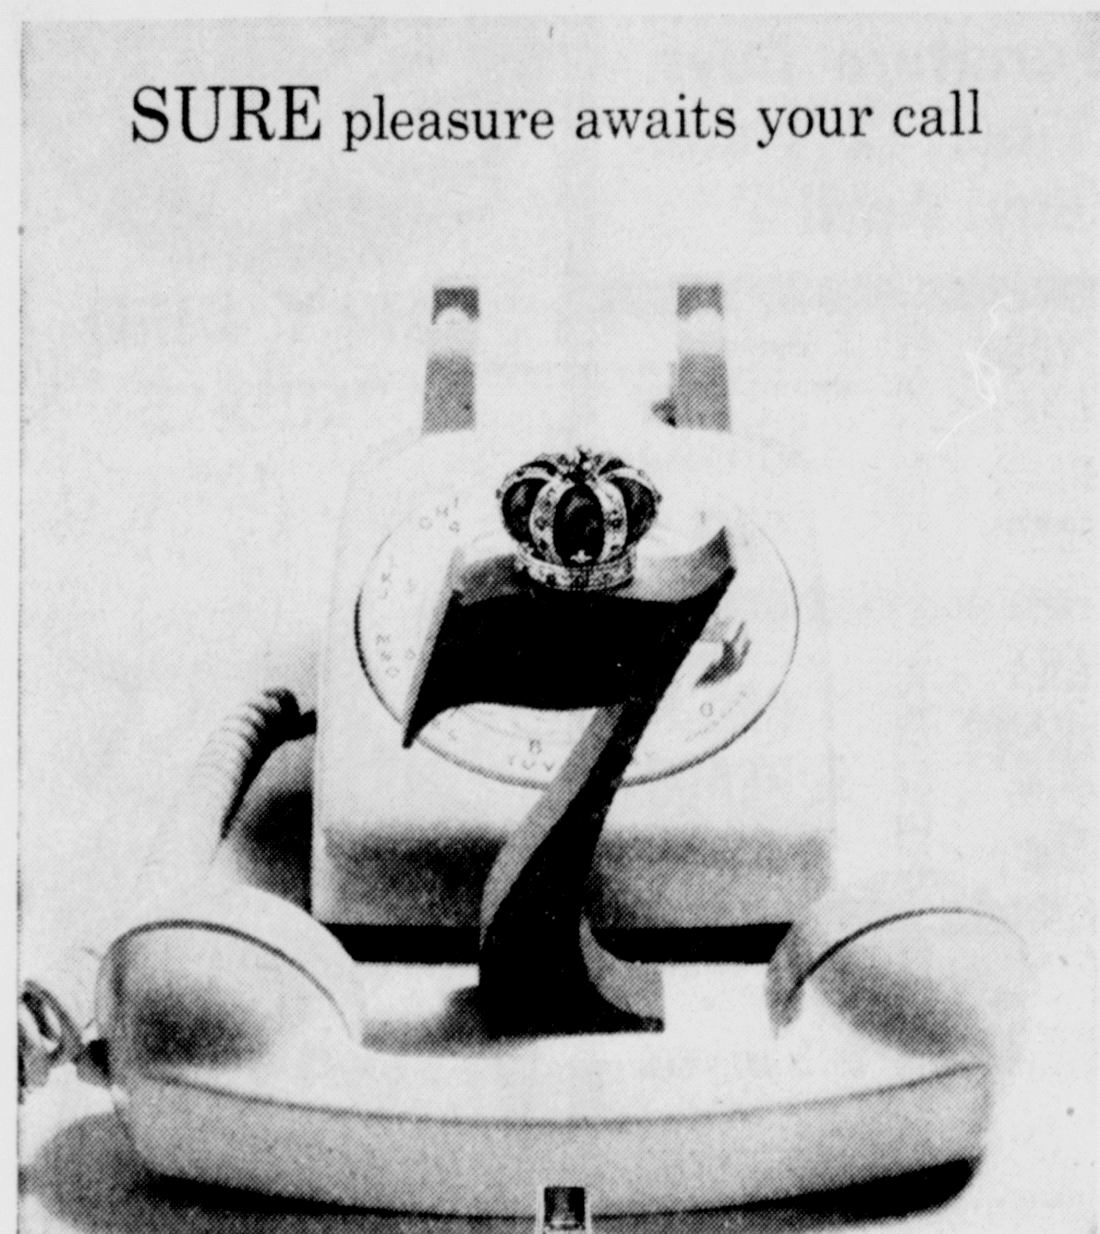

Stanley E. Oleynik has been appointed to the newly-created post of residential representative.

Grover O. Aonholt, formerly commercial representative for the Frostburg, Keyser and Romney areas, has been assigned to the Romney, Moorefield and Petersburg areas as residential-commercial representative.

Robert L. Aleshire, formerly residential heating specialist in the Cumberland, Keyser, Frostburg and Romney areas, has been transferred to Frostburg from where he will serve as residential-commercial representative for the Frostburg and Keyser areas.

Johnston, in his announcement, said that C. Robert Meyer, veteran commercial representative, will continue to serve in that capacity.

A native of Allentown, Pa., Oleynik joined Potomac Edison earlier this year. He attended Allentown High School and is a graduate of Penn State University where he received his bachelor of science degree in marketing. He is a veteran of the Navy, serving from 1949 to 1953. Oleynik is married and has one son, Jeffrey.

### Sgt. J. D. Lutz New Marine Recruiter Here

Gunnery Sgt. Joseph D. Lutz has been assigned as non-commissioned officer in charge of the local Marine Corps recruiting office at the Post Office.

He is replacing Staff Sgt. Robert J. Grayson, who is under orders to report to the Fleet Marine Force for duty with the Second Marine Division on August 14.

Sgt. Lutz was born at Long Island, N. Y., in 1926 and spent his boyhood years in Janesville, Wis. He enlisted in the Marines in 1943 and joined the Fourth Marines at Saipan.

In February 1945 he landed at Iwo Jima with the Marines but was wounded 15 days after the invasion by Japanese rifle fire. After six months in military hospitals and another six months at various bases he was discharged from the service.

Before re-enlisting in 1949 he worked in the garment manufacturing industry. He served on Okinawa for two years and in 1957 was assigned to the Marine Supply Depot at Albany, Ga. He has served there until his assignment here.

Sgt. Lutz holds the Purple Heart medal, Presidential Unit Citation and Navy Unit Commendation medals among his eight battle decorations.

Kenneth Moreland, Mrs. Gilbert Markwood and Miss Joan Markwood will sing, "Consider the Lilies."

### Church Choirs In Program

The senior, intermediate, and junior choirs of First Baptist Church will present a musical program at the evening service Sunday.

The choirs will sing "A King in His Glory," "Holy, Holy, Holy," "Psalms of Praise," "Beneath the Cross of Jesus," "By Early Morning Light," "Christ Is Risen, Alleluia," and "Thou Whose Name."

Miss Jacquie Day will sing "The Great Judgment Morning," and Misses Joyce, Carolyn and Susan Hammer will present "There Is Room In My Heart for Thee."

A voice-trumpet duet, "The Trumpet Shall Sound," will be given by Robert Moreland and

### City Crews Assisting With Street Paving Work

City crews will work along company in order that manholes other installations would result in same area after the Bedford Contracting Company during the water connections can be raised. Nuzum said sewer department workers will also participate in the resurfacing program by re-laying of the finished course. The Bedford Street improvement will cover 2,620 from Henderson Avenue to the end of the brick pavement.

The firm was awarded contracts for the resurfacing of nine streets at a total cost of \$47,828, to be torn up in the event of an emergency.

It was considered for a time that such installations be marked by the engineering department, to let the Cumberland Contracting Company start work on the raising of the manholes and other resurfacing projects in the

Prospects Better Despite Pessimism

Since 1946 the Survey Research Center of the University of Michigan has made periodic surveys of consumer attitudes. The surveys have been helpful particularly to merchandise and sales planners.

Now at hand, the 1960 study helps dispel some of the confusion created by economists blowing alternately hot and cold on this year's business prospects.

The center interviewed 3,000 families in January and February. It found that while some economists were on the pessimistic side, consumers showed a growing confidence in the national economy and a strong inclination to buy homes, automobiles, appliances and so on.

For all their optimism about the business outlook, however, consumers were not quite as enthusiastic about spending as in the banner 1955-56 period. Mostly they were worried about possible price increases, except for automobiles and appliances. Researchers found that "new car buying intentions for the next 12 months are at present 20 per cent higher than a year ago."

House buying intentions also were shown to have increased in recent months.

The university's record for accurate surveys has been remarkably good. If the consumers follow through on their expressed intentions as they have in the past, 1960 is certain to reach a high level.

These Days

By George E. Sokolsky

The Black Explosion

The events in South Africa only dramatized the fragmentation of the world into small nations, the rising temperature of nationalism and the explosion of the black, brown and yellow peoples. Population-wise, the white peoples are a minority; in the United Nations, its 82 members now represent more pigmented than white peoples.

Since 1941, 23 new nations have gained their independence. Most of them mark the break-up of the British, French and Dutch empires. They include about 750,000,000 human beings. They are:

Burma, Cambodia, Camerons, Ceylon, Egypt, Ghana, Guinea, India, Indonesia, Israel, Jordan, South Korea, Laos, Lebanon, Libya, Malaya, Morocco, Pakistan, Philippines, Sudan Republic, Syria, Tunisia, South Viet Nam.

It is expected that another eight nations will be established in the near future, representing about 63,000,000 human beings. They are:

Togoland, Somalia, Nigeria, Congo, Dahomey, French Sudan, Senegal, Madagascar.

It can be seen, from these lists, that most of these peoples are colored in the sense that they are not white. The domination of the Earth by the white peoples which started with Henry the Navigator (1394-1460), historically not so long ago, has perhaps run its course. Certainly in the General Assembly of the United Nations, it is not the North European nations which can always produce a majority if the others unite against them, for in that body, it is a numerical majority that counts. This could be another method of conquest if used effectively. Hitler's Nordic world has collapsed as the result of the war he started.

Way back at the beginning of World War II, I was asked by a publisher to write a book, the idea being that everybody writes books. I said that I would write one to establish that the end result of World War II would be the elimination of the white race from control of the world and that there would, in every colonial or semi-colonial country, be a rebellion. The idea was rejected. The editor thought that my notion was preposterous and that I simply wanted to be sensational. I always suspected that he submitted the thought, for guidance, to the OWI and was told to drop it.

I was very sorry then; perhaps the publisher is sorry now. Foresight is almost an un-American quality.

It was inevitable, after World War I, that this explosion among the pigmented peoples should take place. Actually, its authors are Woodrow Wilson and General Jan Smuts, the South African. When in the Fourteen Points they advocated self-determination, what did they expect? Would it only apply to Finns against Russians or Croats against Serbs?

Race, color, and religion are the most exciting mass emotions. The South African explosion involves all three of these human responses to the emotion of pride. Today there are no underdogs. Only in a very rich society such as we have, do emotionally outworn persons deny race and religion, although they have some difficulty with color. Name-changers, nose-clippers in our society believe that they "have solved the problems of discrimination finally and forever. But they have not solved the problem of pride and that always makes trouble for the group as well as the individual.

The white minority in South Africa wants to forget that there would have been no colored as distinct from Negroes if the white folks had not had Negro mistresses and even wives. The biological intermingling of races produced the intermediate colored elements which, in the past, did not regard themselves as Negroes but they are now giving the enormous Negro population an educated and alert leadership.

Those who wish to dominate and rule must discriminate and master or they will be drowned in the mass. It was this policy which conquered Africa and Asia. When it was abandoned by 20th Century liberalism, by every country except Soviet Russia, the European empires fell and the Asiatic empires were strengthened. But the Asians make discrimination a creed, as, for instance, the Arab attitude toward Israel and quite apart from Israel, toward Jews. Another example may be the Red Chinese attitude toward Tibetans, etc.

When empires thrive, the master race asserts its superiority. If there is no superiority, there is no reason for the existence of the empire. Mid-20th Century liberalism has opened may be a Pandora's Box, but this one could turn out to be the most unpleasant.

Agreements Can Limit Size Of 'Nuclear Club'

By David Lawrence

WASHINGTON — The next step in the game of "nuclear blackmail" seems to be approaching. Evidently Red China has been secretly aided by the Soviet Union in preparing for admission to the "nuclear club." The big question soon will be what price the free world is to be asked to pay to try to persuade Red China to accept limitations on the testing and developing of atomic weapons.

President Eisenhower in his press conference last week revealed that, in trying to get a ban on nuclear tests, the "driving force" among the free nations is an effort to prevent the "nuclear club" of nations from growing. It has been widely assumed that a similar motive actuates the Soviet Union.

A London dispatch on Monday, however, by the United Press International, quotes "The Daily Mail" as saying that Red China plans to explode her first atomic bomb in June or July of this year and that aiding in the preparations is Professor Bruno Pontecorvo, a British scientist who defected to Russia in 1950. The newspaper adds that the coming explosion of a big atomic bomb is related to the development of "three smaller atomic bombs believed to have been put together with Soviet help during the past few years."

On January 11 last, in a dispatch from Hong Kong, Robert P. Martin, a regional correspondent of "U.S. News & World Report" who speaks Chinese fluently, gave first details concerning Red China's plan to become a nuclear power. He wrote that the Soviet Union, while at first reluctant, began giving help to the Red Chinese in 1955 with gifts of various ingredients necessary to make the A-bomb. The Soviets signed an agreement with the Red Chinese for scientific and technical cooperation and announced they would furnish some experimental reactors. The dispatch added:

"The Soviet Union has been the key factor in getting China start-

ed in nuclear physics. But the Chinese Communists got an unexpected shot in the arm when a number of highly trained and skilled Chinese physicists returned to Peiping from the United States after the Korean truce was signed.

"These young scientists, graduates of topnotch schools such as California Institute of Technology, the University of Chicago and Massachusetts Institute of Technology, were joined by half a dozen other Chinese who had received graduate training in Britain and West Germany. Some were immediately given jobs teaching in Red China's universities.

"The Chinese Communists have their own rocket-research pro-

gram, headed by Dr. Chien Hsueh-shen, chairman of the All-China Automation Society. Dr. Chien was a professor at Massachusetts Institute of Technology and headed an American delegation of scientists that examined the German rocket program after World War II. Chien returned to China in 1953 from the U.S., and has just become a full member of the Communist Party. . . .

"The atomic test expected in 1961-62 will not immediately make Red China a nuclear power in the basic military sense. Translating a test explosion into military muscle takes time.

"On the basis of the evidence, the Chinese Reds are more interested in the psychological impact than in producing a usable

Inside Washington

By Henry Cathcart

RELIGION — Al Smith's 1928 defeat in the presidential elections is universally attributed to the fact that he was a Catholic. However, as the religious issue is being raised again, some political pros are taking another look at the voting that year and are now not at all certain that he was defeated by anti-Catholics.

They point out that there were many other factors in the political atmosphere — particularly good times, which traditionally favor the Republican party.

Research shows that while Smith was the last Catholic to make the Presidential race, he won more electoral votes than did Herbert Hoover in 1932, Alfred M. Landon in 1936, Wendell Willkie in 1940, or Adlai Stevenson, in 1956.

The cold fact is that politics is an inexact science and "experts" have a habit of attributing success and failure to factors which may or may not be valid.

STRANGE BEDFELLOWS — Thomas B. Corcoran and James H. Rowe were confidential aides at the White House during the early days of the Franklin D. Roosevelt administration. Corcoran was by far the more publicized of the two, but Rowe built an enviable reputation for himself as a sage and wily politician.

Subsequently, they became partners in a highly successful Washington law office and currently occupy adjoining suites.

Effective political aides, however, are hard to come by. So it has come to pass that Corcoran is working for the Democratic Presidential nomination of Senator Lyndon B. Johnson of Texas while Rowe is on Senator Hubert H. Humphrey's team.

The rivalry doesn't seem to disturb the business or personal relationship of the two men. In fact, they often check on each other's strategy.

Nelson Rockefeller Is Preparing Speeches Highly Critical Of Nixon

By Drew Pearson

WASHINGTON—Unless he can be talked out of it, Gov. Nelson Rockefeller will begin next month to set forth his views on major issues in a series of speeches that will be highly critical of Vice President Nixon.

For the plain truth is that Rockefeller dislikes and distrusts Nixon.

The dynamic New York governor is planning the speeches with Emmet Hughes, the former White House aide who wrote Ike's famous "I-will-go-to-Korea" speech, but later broke with him over foreign and defense policies.

Both Rockefeller and Hughes believe Nixon lacks the vision to lead the nation into the surging new era which the Space Age is opening up. They believe he is so obsessed with what he is against that he is incapable of constructive, forward leadership.

They haven't decided, however, whether to make these charges against him by name or leave it to the newspapers to interpret that Nixon is the target of the Rockefeller speeches.

The first speech is scheduled next month before the Foreign Affairs Council in Philadelphia. At least four more major speeches are planned before the Republican convention opens in Chicago in July.

Nixon not only is aware of Rockefeller's plan but has already tried to divert him by sounding him out indirectly about accepting the vice presidential nomination or keynoting the Republican convention. From

military weapon. For that reason, the Hong Kong experts say that the Chinese probably will not even wait to engineer a bomb. An explosive device set off in China and monitored throughout the world would be just as effective as a dropped bomb in notifying the world that China had become a nuclear power.

"In effect, the Chinese are believed to be pushing headlong toward nuclear power as one way of 'shooting' their way into international acceptance as a political and military force. The theory is that disarmament schemes and systems to control and limit nuclear tests lose their validity if any country with an atomic-weapon potential is ignored. No Western power could afford to disarm and leave an armed Red China still in the field."

A source in Washington intimately familiar with atomic matters was asked today how Red China or other nations could get the "know-how" to make atomic weapons. He answered:

"Simply from the general advance of science. If they wished to, they could read the famous Smythe Report which was written in 1945. There are plenty of good scientists floating around the world. Also, you can't tell the difference between an experiment that is ostensibly aimed at a peaceful purpose and one that has to do with military science."

There is no way to limit the "nuclear club," therefore, except by international agreement. France has refused to be brushed aside and insists on continuing her tests. Other nations may do likewise, and agree to refrain from testing or production only after they have exacted from other nations a price for their forbearance. It is predicted by scientists that someday Sweden and West Germany will be among the nuclear powers in the West, and that some of the Communist nations, now satellites, will be brought into the "club" through Soviet scientific aid.

Illustrated inconsiderately published a picture of "high-flying golfers." Now Commissioner Durfee is being promoted to be a judge on the U. S. Court of Claims, and the Democrats are stuck with the question of whether they're going to apply the same hospitality standards to Durfee as Ike did to Doerfer.

Some of them say, incidentally, that Ike might do this himself, by withdrawing Durfee's name.

Purely Personal

When the secretary to GOP Sen. John S. Cooper (Ky.) was informed that her boss might be blacklisted by teamster leader Jimmy Hoffa, she remarked: "Well, that's one guy we'll never sue for non-support." . . . Said Democratic Rep. John Dent (Pa.) to 1,200 admirers helping to celebrate his 25th anniversary in politics: "Today I am cutting a cake. Twenty-five years ago I was cutting capers." . . . Rep. John E. Fogarty of Rhode Island, considered by colleagues the leading congressional authority on medical research, still likes to do a little spars-time bricklaying, his occupation before coming to Congress 20 years ago. . . . Texas oil millionaire Sam Lard boasts privately that he has the fanciest wardrobe in all Texas. It includes a flashy sports jacket with his family crest etched over the breast pocket in diamonds, also a belt with a solid platinum buckle—more valuable than gold. His favorite cowboy boots are made of soft white kidskin, with purple and gold patterns. . . .

Nino Negretti, the lawyer who defended Fidel Castro's followers for two years, and Charles Hormell, the "phantom pilot" who flew supplies to Castro's guerrillas, have now sent Castro bills for their past services. Castro's reply was to order their immediate arrest if either should ever show his face in Cuba.

Market's Decline

By Leslie Gould

Under the Dow Theory, the stock market in March got a "bear" signal, but only after a 13 per cent loss in values. Since getting the signal, the market has come back some, although it is off on the march.

Left up in the air is this question as to the decline:

Is the market merely discounting the over-optimism at the start of the year, or is it indicating something more than that as to the business trend?

The Dow Theory signal came in the first week of the month's trading. This was when the Dow Jones railroad stock price index broke through its former resistance point on the downside, supposedly confirming a similar reaction in the DJ industrials.

On the sell-off, the DJ industrial index got down to 596.61 and the railroad average to 137.63, but they wound up the month at 616.59 and 143.74 respectively.

The highs in the two indices made at the very start of the year—when there was massive optimism—were 688.21 in the industrials and 161 in the rails. So those who waited for this signal before taking profits have seen a substantial chunk of their profits lost. If they bought around the highs they have big losses.

While the DJ industrials at their lows were off 13 per cent, a long list of important stocks lost much more than that on the decline since the first of the year.

In the steels, U. S. at its recent low of 79½ is off 24; Bethlehem at 45½ is off 11½; Jones & Laughlin at 62½ is down 27½, and Youngstown at 104½ is off 34½.

In the coppers, Anaconda at 49½ is off 18½; Kennecott at 76½ is off 24½; Inspiration at 33½ is down 10; Cerro de Pasco at 29½ off 12½, and American Smelting at 42 a minus 12½.

In the motors, General Motors at 45½ is off 12½; Chrysler at 51½ is down 20; Ford at 69½ is off 23½, and Studebaker at 12½, a minus 12.

In the airlines, United at 26½ is down 11½; American at 18½ is off 7; Capital at 8½ is minus 4½, and Northwest at 19½ is down 12½.

In the aircraft manufacturing, Boeing at 23 is down 9½ and Douglas at 33 is off 9½.

In the papers, International at 107 is down 29½ and St. Regis at 38½ is off 17.

The list is longer, but these examples show what has happened since the first of the year, but the Dow Theory did not give its bear signal until most of these of these stocks were around these lows. What is needed is a signal before instead of after the fall. Only, no one has come up with such a system.

A lot of stocks are still selling at high levels in ratio to earnings—both actual and prospective—but there are plenty that are modestly priced. This is a good time for switching out of less favorable stocks into those more favorably situated. But whatever a person does—either in selling or buying—he must investigate thoroughly.

Gone from the market, for the moment at least, is the inflation factor. This has furnished some of the steam for the boom of the last ten years.

The bullish factor continues to be consumer spending—everything points to this being maintained. The uncertain factor is business spending. The stock market's drop may put a damper on this. Then, there is more than ample plant capacity to meet civilian as well as military spending.

In this department's tabulation covering 36 stock groups, only eight were higher on the month, one was unchanged, while 27 were lower. The best showing was made by the building shares on prospects of some pickup in building as a result of the easier money. The weakest were the air lines and aircraft manufacturing.

This is not known but contact lenses are most effective should the offspring develop the condition. In this ocular disorder the cornea is cone shaped and ordinary glasses are of no value.

Try And Stop Me

By Bennett Cerf

A fond papa took his young daughter to hear her first opera. They had seats way down front, and the little girl was particularly fascinated by the orchestra leader. At the height of one aria, she whispered loudly, "Why is the man threatening that fat lady with a stick?"

"Hush," hissed the father. "He isn't threatening her at all."

"Then why," persisted the little girl, "is she hollering?"

The last question asked an aspirant for the police force was, "How many miles is it from Staten Island to Sacramento?"

"Listen here," was the aspirant's indignant response, "if that's the beat you have in mind

for me, you can keep your darn job!"

"Do you know," inquired Red O'Donnell, "what'll make a girl's eyes twinkle? Mink!"

# DEATHS AND FUNERAL NOTICES

## Col. J. W. Mann, Army Officer, Dies

Col. J. William Mann, 53, of 57 Walnut Street, Fort Devens, Mass., died yesterday at the Army Base hospital there after an illness of 10 days.

A native of Cumberland, Col. Mann was a son of the late Mr. and Mrs. Luther A. Mann. He was a graduate of Allegany County High School and Virginia Military Institute. He earned a master's degree at Duke University. He had extensive military service.

Col. Mann was adjutant General of the 13th U.S. Army Corps at Fort Devens, where he was first assigned in July of 1958.

His station prior to that was at Fort Bragg, N. C.

He began his active duty with the Army in July of 1942 and until August of 1945 was director of military science at the adjutant general's schools at Fort Washington, Md., Fort Sam Houston, Tex., and Fort Lee, Va.

From 1945 to 1946 he was stationed at Port of Embarkation in New York City. Following that, he served in Japan with the Far East Command where he was assistant to the adjutant general's section until August of 1948.

Col. Mann served at the Pentagon from December of 1950 to August of 1952 where he was associated with Military Procurement Service, the highest division of military recruitment.

He returned to the Far East in 1952 to serve in the Korean conflict where he was stationed until March of 1954. During that period he was awarded his highest honor, the Legion of Merit.

Col. Mann was affiliated with the Army for a total of 34 years, the last 18 of which were on active duty. He was connected with the Army Reserve prior to active service.

Before he embarked on his active duty tour, he was in charge of the English Department of the University of Maryland at College Park, Md.

Surviving are his wife, Mrs. Lillian (Kifer) Mann, a former resident of Cumberland; a brother, Robert H. Mann, Cumberland; and a sister, Mrs. Emory (Mary Ellen) May, Chester, Ill.; and a daughter, Miss Virginia Kay Mann, at home.

Services will be conducted at Fort Devens today at 2 p.m. and Friday at 1:15 p.m. at Arlington (Va.) National Cemetery.

The family will receive friends at the funeral home from 2 to 4 p.m. and 7 to 9 p.m.

# 24th Augusta Masters Golf Tournament Begins Today

## Entry List Reads Like Honor Roll

### Six Newcomers To Participate In Traditional Event

By HUGH FULLERTON JR.  
AUGUSTA, Ga. (AP)—The 24th edition of the Masters Golf Tournament gets under way Thursday with an entry list that reads as if it were an honor roll of golf.

The Masters has been an early April fixture here since 1934, when Bobby Jones invited a few friends to try the ten-year Augusta national course in a combined tournament and social gathering.

It was grown into a great and financially rewarding golf event but has retained a great deal of its original flavor. The field of players changes little from year to year and the broad, flower-dotted golf course remains much the same.

**Earn Right To Play**

No one plays in the Masters who hasn't earned the right either by winning one of the world's major championships in the past or by outstanding performances in the last year. This time six Americans who never had played in the Masters were invited along with a scattering of new foreign golfers.

And no stranger to the demanding, 6,850-yard par 36-36-72 course is likely to barge in and outscore the players who have spent years learning the tricks of the deceptively broad fairways and the huge rolling greens.

Jack Nicklaus, the husky young National Amateur champion from Columbus, Ohio, came close to upsetting that part of the tradition Wednesday. Nicklaus, who'll be playing only in his second Masters, fired a practice round of 32-34-66, six under par, on the slowly drying course.

Because of recent weather conditions Augusta National is expected to make new demands. Two days of bright sun and cool winds have dried it out after a week of rain but the ground still is soft.

**Palmer Is Favorite**

Favorites in the field of about 90 include such clouters as Arnold Palmer, the winner here in 1959 and the outstanding player on the winter tour this year; Mike Souchak, who feels he has a good chance; three-time Masters Champion Sam Snead; Cary Midcoff and Ken Venturi.

Jimmy Demaret and Ben Hogan, both past winners aren't getting much consideration since they no longer play regularly in tournaments.

### Wynn Blanks Detroit, 2 To 0

SARASOTA, Fla. (AP)—Vefar, an right-hander Early Wynn went seven innings, the longest any White Sox pitcher has gone thus far, as the Chicagoans beat Detroit 2-0 Wednesday.

The Sox got four hits off Frank Lary, who went the route for the Tigers. Three of them came in the fourth when the Sox scored all of their runs.

Detroit 000 000-0 6 1  
Chicago (A) 000 020 00x-2 4 1

Lary and Roark; Wynn, Baumann (8) and Lollar. W—Wynn.

### Game Postponed

Potomac State College's scheduled home baseball opener against Shepherd College yesterday was postponed because of cold weather. Coach John Fox of the Catamounts said no new date has been set for the game.

## Shuffle Contests Tonight To Decide League Finalists

Finalists in the playoffs for the championship of the Allegany County Men's Shuffleboard League will be determined in matches tonight at Peck's Cafe in Frostburg and the Purple Heart Club, 770 Greene street.

At Frostburg the Cumberland Eagles and Peck's will tangle in the last three games of their six-game series in the league's American Division. The Eagles finished 16 points in front by winning the first half of the series, 81-65.

The Purple Heart Club goes in to the last three games of its series with Sweitzer's Restaurant with a lead of five points, having won the first three games of the National Division playoffs by the score of 50-45.

Winners of tonight's matches will clash next week for the league title.

## Acetates Capture Celanese Loop Title

The Acetates captured the second half title in the Celanese Staff Bowling League last night by turning back the Arnels, 2-1, and thus gained the right to meet the first half champion Celaperms in the five-game total pin playoffs. In the other match last night the Celaperms defeated the Fortians, 2-1.

Next week the league will be held but a special doubles tournament will be held on April 20 at the Capital alleys. On April 27 the playoffs will be held between the Acetates and the Celaperms.

High scorers for yesterday's matches were Byron Bonebrake, 413, and Grace Lashley, 335. Acetates: Sally Conrad, 400, and Bud Dickerhoff, 358. Arnels: Pat Padelford, 427, and Marguerite Mulan, 316. Celaperms: Bunny Serfian, 316, and Dot Carnes, 357. Fortians: The finals second-half standings:

Team	W-L
Acetates	24-15
Celanese	21-18
Fortians	12-22

## Tribe Wins 10-9 Over Chicago Cubs

TUCSON, Ariz. (AP)—A walk to Bubba Phillips with the bases loaded in the last of the ninth gave the Cleveland Indians a 10-9 victory over the Chicago Cubs Wednesday.

Moe Drabowsky walked the winning run across after Bob Hale had tied the score with a bases-loaded double. That blow would have won the game, but the ball rolled under the center field fence and was ruled a double. A runner who would have scored from first base was forced to stop at third.

Chicago (N) 002 000 034-9 16 4  
Cleveland 000 041 104-10 14 1

Drott, Gomez (5), Elston (7), Cecarelli (8), Drabowsky (9) and Neuman, Averil (8); Grant, Stigman (6), Tiefenauer (8), Locke (9) and Romano. W—Locke. L—Cecarelli.

Home runs—Chicago, L. Johnson, Banks.

## Stanley Cup Finals To Begin Tonight

MONTREAL (AP)—The powerful Montreal Canadiens Wednesday routed 12-5 favorites to win the opener of their Stanley Cup final series against the Toronto Maple Leafs.

The best-of-seven set begins Thursday night on the home ice of the Canadiens, who are seeking their fifth consecutive National Hockey League championship.

Both coaches were confident of victory on the eve of the second straight all-Canada final.

## Bennett Hurls No-Hit Game For Franklin

### Panthers Defeat Circleville, 10-0

CIRCLEVILLE, W. Va.—Richard Bennett, senior righthander for Franklin High's Panthers, opened the 1960 baseball season with a sterling no-run, no-hit performance yesterday as the Panthers turned back Circleville, 10-0, in a Potomac Valley Conference tilt.

Bennett was backed with a 10-hit attack as Franklin began its final season under the tutelage of Curtis "Gus" Smith who plans to resign at the close of this year's school term.

The Panthers scored single tallies in the first and second off Roger Kelsey, added four more off Harper and another four runs off Ruddle. Bennett, meanwhile, gave up a first inning walk, hit Harper with a pitch in the sixth frame and had his teammates commit one error behind him. He fanned 11 Circleville batters.

Leading sticklers for Franklin were Bob Cline who homered to open the fourth inning and also collected a single; Leon Dunkle who doubled; Joe Dahmer, Steve Conrad and Ken Nelson who each garnered two hits. The box:

## Campers, Bobcats Will Open Track Schedules Today

Allegany High School and Frostburg State Teachers College will launch their track and field schedule in meets away from home today.

Coach Ed Schwarz's Campers will engage the thirclads of Keyser High School and the West Virginia School for the Deaf in a triangular meet at 3:30 p. m., at Romney.

Coach Kenneth Babcock's Bobcats will invade Shippensburg, Pa., for a triangular meet with Shippensburg State Teachers College and Mt. St. Mary's College of Emmitsburg, Md.

## Capon Bridge Edges W.Va. Deaf, 8-6

CAPON BRIDGE, W. Va.—Capon Bridge jumped off to a 7-lead in the first two innings and made the margin stand up for an 8-6 triumph over West Virginia School for Deaf nine, here yesterday in a Potomac Valley Conference tilt.

Bruce Saville pitched and batted his team to victory in the opening game of the season for both squads. Saville gave up only six hits and struck out 16 as he went the route for Capon Bridge. He also collected three of his team's eight hits. Lloyd Brill chipped in with a pair of doubles to aid Capon Bridge's cause.

Perry, the losing pitcher, garnered three hits for West Virginia Deaf. The box:

## Games Forfeited In Shuffle Loop

Several matches were forfeited in the Allegany County Women's Shuffleboard League when postponed games were not played off in the two week's grace period allotted under the rules. The forfeits were decided at a meeting of the league.

The Cumberland Owls forfeited three games to the Golden Nuggets and Southern Bar forfeited three games to Purple Heart. The Owls have another postponed series with the Pocahontas team to make up. The match will be played on Tuesday night.

## Fullmer, Kerwin Battle To Draw

MIAMI BEACH, Fla. (UPI)—Welterweight Jay Fullmer and Gale Kerwin fought to a 10-round draw Wednesday night in a nationally televised fight that featured admission by invitation only.

Former world heavyweight champion Rocky Marciano refereed the bout. He scored it 98-98 under the 10-point-must system. Judge Dave Feld had Kerwin in front, 98-95, but Judge Barry Pearlman favored Fullmer, 97-95. United Press International favored Fullmer, 96-95.

## Dick McElwee Leaves Charleston For Florida Post

CHARLESTON, W. Va. (UPI)—Dick McElwee said Wednesday he will resign as football coach at Charleston High School to take a similar position at a new school in Florida.

McElwee said he will become coach at McArthur High School in West Hollywood, Fla.

The 41-year-old West Virginia University star of the early 1940s, captain of the 1942 Mountaineer team, has been coach at Charleston for six years, posting a 46-12-2 record.

Before coming here, McElwee coached 10 years at Romney, W. Va., High and had a 67-24-9 mark for an overall 16-year record of 113-36-11.

McElwee said he has not yet submitted his resignation here and has not been officially hired at Hollywood "but we plan to move to Florida." He said the Hollywood job pays slightly more than his present coaching-teaching salary.

## Musial's Home Run Wins For Cards, 13-10

SCOTTSDALE, Ariz. (AP)—Stan Musial's three-run homer in the eighth inning gave the St. Louis Cardinals a 13-10 victory over Boston Wednesday.

Supposedly washed up after hitting only .255 last year, Musial came up with the score tied at 10-all and two runners on base. Musial greeted Ted Bowsfield's first pitch with a towering drive to right field that landed beyond the fence at the 370-foot mark.

## Keyser Captures Abbreviated Tilt Over Eagles, 7-0

KEYSER, W. Va. — Keyser High's baseball team opened its season on an odd note, winning an abbreviated 2½ inning game here, 7-0, over the Fort Ashby Eagles in a Potomac Valley Conference engagement.

Because of prior agreement to limit the game to five innings, the umpires and both teams called the brief tilt a legal contest when rain and snow halted play in the bottom of the third.

Keyser jumped off to five-run lead in the first inning and added two more in the second. Fort Ashby failed to get a hit off Dick Rawlings in the three innings he toiled. Gary Keedy had two hits for the winners including a double as Keyser collected four hits. Jim Courrier banged home two runs with a first-inning single and Fred Clark garnered the other safe blow, a single. The box:

## Ridgeley Pinmen Top Allegany 2-1

Ridgeley High topped Allegany's pinmen 2-1 yesterday in the final regular season match of the Bi-State Inter-scholastic Duckpin League on the Diamond alleys.

In turning back the second-half winners, Ridgeley spilled 2,338 pins on games of 727, 816 and 795. Allegany toppled 2,077 pins with games of 748, 701, and 628. The Campers took only the first game of the three-game set.

High scorer for Ridgeley was Darryl Meese with 123-201-164 for 488. Best bet for Allegany was Bill Kelly with 133-143-135 for 431 set. Larry Peters had high game for the Campers with 172.

The playoffs for the championship will get under way Monday when Allegany meets LaSalle High's first-half champs in a six-game series beginning with three games on the Diamond alleys at 5 p.m. The winner will be decided on total pins for the six games. The final three games will be held at 5 p.m. next Thursday at the Club Recreation alleys.

### Fort Hill Bands To Give Concert

Fort Hill High School's Junior  
and Senior Bands will present  
their annual spring concert in  
the school auditorium today at  
8 p. m.

According to Robert O. Nutter,  
band director, various types of  
music will be presented by both  
bands.

Selections to be presented by  
the Junior Band include "Gay  
Lancers", "Carnival of Roses",  
"Overture", and "Cuban Holiday".  
Senior Band numbers will be  
"March Forth", "Ariane Overture",  
and "Hascals Rascals".

Clarinet and flute ensembles  
and a few selections by the high  
school dance band will be featur-  
ed. Also on the program is a  
performance by Junior and Senior  
Band majorettes in twirling  
routines.

There are more than 400 thou-  
sand and a half in the United  
States.

The "American chameleon,"  
the playful little pet sold at cir-  
cuses, is not a true chameleon.  
An American lizard, correctly  
called the Anole, it ranges from  
North Carolina to Florida, and  
west to the Rio Grande.

Hebrew is the only one of the  
ancient languages that has sur-  
vived as a spoken language.

### Labor Council Meets Today

The Western Maryland Central  
Labor Council will meet today at  
7:30 p. m. at the Labor Temple  
on South Liberty Street.

It was decided to hold the  
session today instead of next  
Tuesday in order to discuss possi-  
ble endorsement of a Congres-  
sional candidate for the primary  
in May.

Prior action was desired as  
the statewide AFL-CIO meeting  
of COPE will be held Saturday  
in Baltimore. Delegates of the  
local group will be selected.

Other discussion will include a  
report on the committee handling  
the efforts to have the Interstate  
Federal Highway routed through  
Cumberland westward.

**FAT  
OVERWEIGHT**

Available to you without a doctor's pre-  
scription, our drug called ODRINEX. You  
must lose up to 7 days or your  
money back. No strenuous exercise, laxa-  
tives, massage or taking of so-called re-  
ducing candies, crackers or cookies, or  
chewing gum. ODRINEX is a tiny tablet  
and easily swallowed. When you take  
ODRINEX, you still enjoy your meals, still  
eat the foods you like, but you simply  
don't have the urge for extra portions  
because ODRINEX depresses your appetite  
and decreases your desire for food.  
Your weight must come down, because as  
your own doctor will tell you, when  
you eat less you weigh less. Get rid of  
excess fat and live longer. ODRINEX  
costs \$3.00 and is sold on this GUAR-  
ANTEE: If not satisfied for any reason  
just return the package to your druggist  
and get your full money back. No ques-  
tions asked. ODRINEX is sold with this  
guarantee by:

WHAT DOCTORS SAY ABOUT:

**Food Fallacies**  
● Cancer Booklet  
● Self-Hypnosis

**Q. I have heard that toast has  
fewer calories than untoasted  
bread. True or false?**  
**A. False.** There are many other  
false notions about food. Here  
are a few: Food can not be  
stored in open cans. (It can.)  
Garlic cures high blood pressure.  
(It doesn't.) Food cooked in alu-  
minum utensils will cause can-  
cer. (It will not.) Oysters, raw  
eggs, and olives increase sexual  
power. (Pure fiction.)

**Q. Your questions and answers  
about cancer are always inter-  
esting. Can you write more  
about this disease?**  
**A.** More about cancer would no  
doubt be helpful but in that case  
a lot of other health subjects  
would have to be by-passed. The  
American Cancer Society pub-  
lishes an interesting and helpful  
pamphlet which answers more  
than a hundred questions about  
the disease. If you or other read-  
ers are interested, drop us a note  
and we will see that your re-  
quest for the free booklet reaches  
the proper hands.

**Q. Is self-hypnosis possible?  
That is, can a person hypno-  
tize himself?**  
Questions directed to Science Editors, P.O. Box 396, Madison Sq. Sta.,  
N. Y. 10, N. Y. will be incorporated in these columns when possible.

care of the bending you do, stay strong and fit most of your life. But the extensor muscles, which do your stretching, need planned exercise as you grow older. If they are not kept active, the body tends to sag, become bent and somewhat rigid, and, to make matters worse, extra pounds find places to cling to between the loosened muscles.

A daily stretching routine restrains muscles to lithe, easy movement, and it's a wonderful feeling. These two exercises are excellent:

1. Stand erect with your feet

tion with the same powerful swing. Keep this exercise vigor-

As you go along, five times with one leg, then five with the other. Work up to ten times for each leg.

2. Crouch down, knees bent and together. Curl your trunk forward until your head touches your knees. Touch the floor for balance. Straighten your legs very gradually. Next, start to uncurl your trunk, starting at the base of your spine and ending with your shoulders and neck. Then r-e-a-c-h for the ceiling. Hold for a count of ten. Relax and repeat only three times at first, but a gradual increase should take the number to ten.

# Modern County Building Is Advocated

Grand Jurors End Three-Day Service

The construction of a modern county building in the Court House Square and updating outmoded accounting methods of the county treasurer's office are among the recommendations of the April grand jury of Allegany County Circuit Court which yesterday completed three days of deliberation.

In the brief three-page report the investigating body pointed out that the county is faced with the problem of additional library facilities, detention quarters for juveniles, the need for a modern jail and additional Court House space.

## Modern Structure

All of the aforementioned projects entail capital expenditures, according to the jurors, who point out that rather than costly extensive repairs to the existing buildings it is suggested "that the County Commissioners give serious consideration to utilizing the site adjacent to the present library building for a modern county building which would consolidate the functions in the Court House Square."

The books of the county treasurer were inspected and the committee is of the opinion that the present accounting methods are outmoded. The manual entries and tabulations should be eliminated and mechanization instituted to provide more effective and economic operation, the jurors pointed out.

State, county and local law enforcement officials as well as police officers of municipalities in the county were questioned by the grand jury. On the basis of the information available for consideration the grand jury is of the opinion that no organized crime exists within the county and conditions in connection with law enforcement are not unusual.

During the three-day session, the grand jury examined 29 witnesses and returned eight indictments.

The jurors considered the very thorough report submitted by J. William Hunt, chairman of the George Washington Memorial Committee.

Similar legislation having been introduced by U.S. Senator J. Glenn Beall and Congressman John R. Foley for an appropriation of federal funds for the completion of the memorial represents everything that can be done in furtherance of the project at the time, the jurors reported.

They acknowledge with sincere appreciation the time and effort contributed toward the completion of the George Washington Memorial by Mr. Hunt.

Under present practices members of the petit jury are subject to call and service from April until October and from October until the following April.

Monthly Pay Used

Many jurors serve with great personal sacrifice and hardship, the grand jury stated, and in view of the extended and lengthy period of service of the petit jury the grand jury recommends to the clerk of the Circuit Court that each petit juror be paid monthly rather than deferring payment until the end of the term of service.

A number of other recommendations were submitted by the grand jury.

# ABL Contract Negotiations Continue Today

Contract negotiations between Local 261, International Chemical Workers Union, and the Allegany Ballistics Laboratory, will be continued this morning.

Plans for the meeting, scheduled at 10:30 a.m. at the plant, were made yesterday afternoon at the conclusion of a three-hour negotiating session called by James Holden, federal conciliator.

Mr. Holden said yesterday's meeting was "exploratory" and that efforts to reach an agreement will continue.

James D. Smith, president of the 700-member local, said talks will continue this morning but declined to comment on yesterday's meeting.

Local 261 negotiators are being assisted by James D. Gallagher, international vice president.

Duane H. Little, plant manager, represented the Hercules Powder Company, which operates the plant for the Navy Bureau of Weapons.

## Candidates For Youth Offices

Three Allegany County candidates for the Maryland YMCA youth and government model legislature conferred yesterday at Central YMCA shortly before leaving for Annapolis, where the three-day program starts today. Seated is Eric Fable of Allegany High School, candidate for youth governor. Standing, left to right, are William E. "Uncle Bill" Lewis, former YMCA

secretary who accompanied the candidates to Annapolis; John McIntyre, Bruce High School, candidate for speaker of the House of Delegates; Dorothy Robertson, Valley High School, candidate for president of the State Senate, and B. U. Smith, general secretary of Central YMCA. A delegation of 51 is representing Allegany County.

## Tawes Defers Savings Assn. Bill Decision

Other Measures Are Signed Into Law

ANNAPOLIS (AP)—Gov. Tawes Wednesday signed all the bills remaining before him from the 1960 Maryland Legislature except a controversial measure to bring savings and loan associations under state regulations.

The governor said he had not definitely made up his mind on this one. "There are many pros and cons to be weighed carefully," Tawes told a newsman.

The governor has a deadline of midnight Friday to veto the bill. If he takes no action on it the bill will become law without his signature.

When Tawes had the measure left out of a stack of six remaining from the Legislature for a bill-signing today, there was a general assumption at the State House that he would probably veto it.

Shows Concern

When the governor, Senate President George W. Della and House Speaker Perry O. Wilkinson had completed signing the five bills and two resolutions before them this morning, Senate Secretary J. Waters Parrish asked if there would be another bill signing.

"We've only got one bill left, and I think we can take care of that," Tawes replied.

Tawes has been plainly concerned about the savings and loan measure. He was told by backers at a public hearing March 29 that the bill is necessary to curb the operations of "fly-by-night operators" who have been moving into Maryland from other states because of lax state laws and speculating with money of depositors.

The bill would set up two-year residency requirements for officers and directors, require publication of annual financial statements, limit associations to mutual type companies in which all investors have a voice, and set up other restrictions.

Charge Loopholes

Some of its critics have advised the governor, however, that the bill was "hastily drawn" and contains loopholes. One state official was quoted as telling him it would be worse than no regulation at all and that a more comprehensive bill is needed.

The other bills which were still hanging from the session, and which Tawes signed into law will:

Increase the license fees for plumbers from \$3 to \$25 a year and for renewals from \$1 to \$15.

Prohibit hook and line fishing from boats on certain upper Chesapeake Bay tributaries during duck hunting season, starting two days before the season opens and excepting Sundays when hunting is not permitted.

Authorize an \$825,000 bond issue as state aid for Baltimore City jail expansion.

Authorize the State Soil Conservation Committee to accept and spend Federal funds for shore erosion control.

Democrats Gain Big Advantage In Registration

The touring registrars for the Allegany County Board of Election Supervisors visited Oldtown and North Branch yesterday and all except one of the 22 new registrants signed up as a Democrat.

At Oldtown School yesterday afternoon 15 Democrats and one Republican registered. Last night at the North Branch Fire Hall all six registrants listed themselves as Democrats.

Today the touring registrars will be at the Cresaptown School from 2 until 5 p.m. and again from 6 until 9 p.m. Tomorrow they will sit the same afternoon and night hours at the Eckhart School.

## Pennsylvania Turnpike Crash Takes Two Lives

Two persons were killed and three others hospitalized in separate highway accidents which occurred yesterday in Somerset County, Pa. and Garrett County.

Dead are Army Pfc. Jimmy F. Dupire, 19, of Bell-

flower, Calif., and Clarence D. Doenders, 21, of Flint, Mich., who were traveling in a car which went out of control on snow-covered Pennsylvania Turnpike and collided with a tractor trailer about six miles west of Somerset.

In "serious" condition at the Community Hospital in Somerset is Ardell Lee Hargrave, 22, also of Flint, a passenger in the Dupire car. He is reported to be suffering from chest injuries.

William R. Fry, 35, of Elizabeth, Pa., driver of the tractor trailer, was treated at the hospital for shock.

Dupire was driving a car west on the turnpike when it skidded on the icy highway, crossed the medial strip and collided with the tractor trailer about 2:16 a.m. yesterday.

In a one-vehicle accident about noon yesterday on Backbone Mountain in Garrett County, Frank Slavin, 31, of Greencastle, Pa., was admitted to Potomac Valley Hospital in Keyser. His condition was reported as "good" by attaches who said that X-rays were to be taken.

The accident reportedly occurred on State Route 135 at the foot of Backbone Mountain. Slavin was operating a milk truck down the steep grade when it apparently went out of control and rammed into an embankment.

Miss Betty Imogene Church, 22, of Newport News, Va., was admitted to Meyersdale Community Hospital yesterday with injuries sustained in a two-vehicle crash about 9:15 a.m. two miles west of Keyser's Ridge on U.S. Route 40 in Garrett County.

Police said she sustained facial lacerations, a dislocated shoulder and body bruises and is reported in "good" condition at the hospital.

The accident occurred as Miss Church was traveling east on Route 40 which was icy and slippery. Her car went out of control and skidded broadside into a one- and a half-ton truck which had been traveling west on the highway but was parked along the shoulder at the time of the crash.

Driver of the truck was Bryan E. Kimmel, 51, of Box 41, Ellerslie, Tlc. Glen D. Folk, who investigated, said that the probable cause of the accident was speed greater than reasonable and proper.

Police said she sustained facial lacerations, a dislocated shoulder and body bruises and is reported in "good" condition at the hospital.

The accident occurred as Miss Church was traveling east on Route 40 which was icy and slippery. Her car went out of control and skidded broadside into a one- and a half-ton truck which had been traveling west on the highway but was parked along the shoulder at the time of the crash.

Driver of the truck was Bryan E. Kimmel, 51, of Box 41, Ellerslie, Tlc. Glen D. Folk, who investigated, said that the probable cause of the accident was speed greater than reasonable and proper.

Police said she sustained facial lacerations, a dislocated shoulder and body bruises and is reported in "good" condition at the hospital.

## Navy Outlines Progress On Sugar Grove 'Big Dish'

The Navy yesterday unveiled the beginnings of what will soon be the world's largest steerable radio telescope — the 600-foot "big dish" at the Naval Radio Research Station near Sugar Grove, W.Va.

In the first of a scheduled series of press briefings, reporters were given non-military details of the huge research station and were taken on a walking tour of the upland Pendleton County valley which is expected to become one of the scientific capitals of the world.

Among things they learned: —The Navy is asking Congress for an additional \$17,800,000 for next year, on top of \$79,000,000 already appropriated for the project. Besides this, \$4,000,000 has been set aside to build a "Navy village" on a 130-acre tract a few miles away.

—The station will have an eventual staff of about 500, mostly Navy personnel but including about 160 civilian technical and maintenance workers. The Navy, now searching colleges within a 100-mile radius of Sugar Grove to find people trained in the physical sciences, wants "local talent" where possible because it needs a permanent staff.

—About \$2,000,000 annually will be added to the payroll in the Sugar Grove area once the station is in full operation. It's scheduled for completion in 1962.

—The radio telescope will be used for military as well as scientific projects, but the Navy isn't talking about the possible military uses and doesn't even like to hear speculation about them.

## Will Ask Bids

Captain Frank C. Tyrell, resident officer in charge of construction for the Navy's Bureau of Yards and Docks, said yesterday the Navy will ask bids in a month or so for construction at the support area where workers will be housed. The work will involve site preparation, roads, utilities, and three basic buildings — a barracks, an administration building and a storehouse.

Edward F. McClain, director of the Naval Research Laboratory's Radio Astronomy Branch, said radio astronomy is such a new science and the Sugar Grove project such an advanced undertaking that nobody is sure of very much about the "big dish" — what can be expected of it, what its range will be, or even how much the total cost of the new facility may amount to.

Its function will be to "listen" to radio signals sent out by celestial bodies and to record these signals on computer cards so that scientists can learn more about the stars, galaxies and the bodies and spaces between them.

Among its chief scientific objectives will be research to improve communications and navigation.

Steel To Go Up Soon

Steel for the big dish itself won't start going up until the end of next month. It's now being piled up in a B&O railroad area at Petersburg, W. Va.

At the site now are two 420-foot-high erecting towers from which workmen will assemble the dish. Each tower is as high as a 35-story building. The antenna itself, with its 600-foot diameter, will be taller than the Washington Monument when in vertical position.

To support the tremendous weight of the antenna, the Navy's engineers have poured two huge concentric rings of concrete six feet thick. On these will be laid azimuth tracks on which the antenna will run on wheels.

Buried at the center of the rings is a pindle bearing housing—a 95-foot-diameter concrete housing for the big bearing which will keep the antenna from swaying in the wind or wobbling under ice, snow or temperature changes.

The hearing will be designed to withstand a 12,000-000-pound thrust.

Also at the site now is a 60-foot-diameter radio telescope which is being used to monitor electrical interference and to develop tech-

## Indictments Docketed In Court

Valentine, Growden Face Charges Here

Two of eight indictments returned by the grand jury of the April term of the Allegany County Circuit Court, which convened this week, were placed on the open docket yesterday in the clerk's office.

Jesse James Valentine, 32-year-old former local resident, was indicted on four counts in the breaking and entering and theft of \$205 from the McCoolle Elementary School on October 28 last year.

In the other indictment, Homer C. Growden, 40, formerly of Bedford, Pa., has been charged with obtaining \$578.70 under false pretenses from the Cumberland Stockyard Inc. on October 20 last year.

A total of 20 pigs valued at \$378.70 were obtained by means of a check drawn on the Hartley National Bank of Bedford, the indictment charged.

Valentine, who was arrested in Akron, Ohio, was brought back to Cumberland on February 23 by Deputy Sheriff William E. Orr Jr. after waiving his right to extradition.

James Edward Crowe, 24, and Olin Calvin Miller, 32, both of Bowman's Addition, who are now serving five-year terms in the Maryland Penitentiary after having been found guilty of a series of burglaries in this area, were returned here this week to testify before the grand jury in connection with the entry and larceny at the McCoolle school.

On March 10, Chief Judge Morgan C. Harris sentenced the two men to the penitentiary. He also sentenced James Hutzell, 16, of Bowman's Addition to not more than two years in the Maryland Reformatory for Males in connection with the wave of breaking and enterings.

On February 25 Virginia authorities arrested Growden in Winchester in connection with the bad check case.

Both Valentine and Growden are being held in the Allegany County jail pending their trials.

Students Visit Fire Station

A group of about 50 students from Piney Plains School visited Central Fire Department here yesterday.

Fire Chief Virgil Parker said the delegation was split into two groups for tours conducted by Pipemen Richard Smith and George Lease.

Firemen explained the use of the many pieces of equipment needed for fighting fire and provided a demonstration of the city's 85-foot aerial ladder.

Tours were held recently for a LaVale cub pack and a Columbia Street School delegation.

Chief Parker said the department is always happy to show the station's facilities and that tours will be arranged at any reasonable time upon request.

Committee To Meet

The bazaar committee of the Bowling Green Volunteer Fire Company will meet this evening at 7:30 in the fire hall to discuss plans for the carnival July 18-23.

George Mahaney and David E. Kirk are co-chairmen of the event.

## Johnstown Man Dies In Crash On Route 50

Accident Occurs In Grant County

A 68-year-old Johnstown, Pa. man was killed, his wife and a friend hospitalized yesterday morning when the car in which they were traveling collided with a mail truck on U.S. Route 50 about five miles west of Mt. Storm, W. Va., in Grant County.

William E. Weaver, a retired transportation employee, who resided at Harrisonville near Johnstown, was pronounced dead on arrival at Garrett County Memorial Hospital in Oakland. State Police said the man died as the result of a fractured skull and a fractured neck.

In "serious" condition at the hospital are his wife, Mrs. Elizabeth Weaver, and Mrs. Olivia Miller, of Hyndman, Pa. Both the women sustained fractured necks and numerous head and facial lacerations, police said.

The driver of the mail truck, O. C. Hayes of Elkins, was uninjured, according to police who said the two-vehicle collision occurred about 10:30 a.m. yesterday on icy Difficult Curve along Route 50. The highway had been cindered.

Cpl. G. H. Phillips of the West Virginia State Police stationed at Petersburg, is continuing an investigation of the fatal accident.

He gave this account of the crash. Weaver was driving his car downgrade westward on the highway when the vehicle went out of control and went into a skid.

The mail truck driver was proceeding east on the highway and was at about the middle of the turn, according to police, who said the car slid along the highway and rammed into the left side of the truck, turned it over and sheared off the top of the car.

The accident occurred about 14 miles southeast of Oakland. The Weaver car was en route to Parton, W. Va. at the time.

Besides his wife, Mr. Weaver is survived by a daughter, Mrs. Mary Deshong of Johnstown.

The victim's body is at the Minnick Funeral Home in Oakland and will be taken to the Giesel Funeral Home in Johnstown.

## Snow Falls As Winter Lingers On

Ol' Man Winter just won't give in.

Two more inches of fresh snow fell in Garrett County yesterday bringing the Tuesday-Wednesday total to nearly four inches for that section of Western Maryland.

Ralph E. Weber, official weather observer at Oakland, said last night it looks like more winter weather is on the way since the barometer was falling last night.

About one inch of snow was on the ground last night in the Oakland area where the temperature rose to 36 degrees when the sun managed to shine for awhile. During the afternoon snow began falling although it stopped about dark.

The temperature dipped to 22 above zero yesterday morning, and by last night was 31 degrees above zero. The sun, which melted some of the new snow yesterday, had little effect on the old snow lying on the ground in drifts during the past few weeks.

In Cumberland last night the temperature was about 42 degrees after having risen to about 50 during the afternoon. A cold drizzly rain fell about 6:30 p.m.

State Police at LaVale reported that U. S. Route 40 east and west of Cumberland was in good condition. U. S. Route 50 in the Romney area also was reported clear.

However snow was reported in the vicinity of Mt. Storm in Grant County.

Variable sunshine and cloudiness and rather windy weather is forecast for today. The high temperature in the west portion of the state should range from 44 to 52 degrees.

State Board Approves Airport Grant

The State Board of Public Works in Annapolis yesterday approved an agreement between the Board of County Commissioners of Garrett County and the State Aviation Commission for a state grant of \$37,500 toward construction of an airport at Oakland, according to the Associated Press.

This airport is to be built on matching basis by the county, state and federal governments.

Births

Mr. and Mrs. Robert G. Bruce, Jamestown, Va., announce the birth of a son there last month. The father is a son of Mrs. Stella Bruce, Washington, D.C., and the late Motter Bruce. The paternal great-grandparents are the late Mr. and Mrs. Motter Bruce of Cumberland.

Memorial Hospital

Mr. and Mrs. Jack A. Pifer, Flintstone, a daughter last night. Mr. and Mrs. William D. Crosten, RFD 1, Cash Valley Road, a son last night.

Mr. and Mrs. George W. Rindard, RFD 3, Keyser, W.Va., a daughter yesterday.

## Street Resurfacing Work Begins

Cumberland Contracting Company and city workers are seen on Bedford Street at the Decatur Street intersection, as work was started yesterday on the resurfacing of 2,620 feet of Bedford Street. Mayor J. Edwin Keech and City Engineer C. R. Nuzum turned up to watch the beginning of the operation which began shortly after the blacktop-laden truck delivered

the resurfacing material to the waiting machine. City crews are working along with the contractor's men, filling holes and raising manholes to the level of the wearing course. Bedford Street is one of nine streets to be resurfaced at a cost of \$47,282, which will be shared 50-50 between the city and property owners.
